Compendium of Theology Saint Thomas Aquinas, Aeterna Press, 1992 To restore man who had been laid low by sin to the heights of divine glory the Word of the eternal Father though containing all things within His immensity willed to become small This He did not by putting aside His greatness but by taking to Himself our littleness No one can say that he is unable to grasp the teaching of heavenly wisdom what the Word taught at great length although clearly throughout the various volumes of Sacred Scripture for those who have leisure to study He has reduced to brief compass for the sake of those whose time is taken up with the cares of daily life Man s salvation consists in knowing the truth so that the human mind may not be confused by divers errors in making for the right goal so that man may not fall away from true happiness by pursuing wrong ends and in carrying out the law of justice so that he may not besmirch himself with a multitude of vices Aeterna Press

Ultimates Robert Cummings Neville, 2013-09-17 Finalist for the 2015 John N Findlay Award in Metaphysics presented by the Metaphysical Society of America Robert Cummings Neville offers a new theology of the ultimate and a new theory of religion to back it up The first volume in a trilogy this book and companion volumes treating existence and religion advance a systematic philosophical theology to address first order questions found in the array of Axial Age religions Questions generally arising in the major religious traditions are interrogated with a dialectic of philosophical approaches This volume begins the project with a consideration of ultimacy defined philosophically and illustrated in a wide range of traditions To the question of how or why there is something rather than nothing Neville answers with an elaborate hypothesis about the ontological act of creation that creates all determinate things as related to but different from one another The result is the claim that there are five ultimates the ontological act the form of determinate things the components of determinate things the existential location of determinate things relative to one another and the value identity of ultimate things giving rise to five universal religious problematics of ultimacy respectively the question of existence the ground of obligation the quest for wholeness engaging others and finding meaning Neville analyzes what can and cannot be known about each of these ultimates Readers will find Neville s theory of religion and philosophy a bold one running counter to

Participation and Substantiality in Thomas Aquinas Velde,2021-12-06 Participation and Substantiality in Thomas Aquinas presents a comprehensive and penetrating account of Aquinas metaphysics of creation Its main focus is the concept of participation of being On the basis of a detailed textual analysis a philosophical interpretation is offered of the main concepts and arguments which underlie Thomas theocentric understanding of reality The central unifying theme of the book is the apparent tension between the notion of participation central to the Platonic tradition and that of substance central to the Aristotelian tradition The author argues that Aquinas is quite successful in bringing together in his metaphysics on the one hand the substantiality of finite beings and on the other hand their total dependency upon the divine being by way of participation The author defends his interpretation in a critical discussion of the views on participation brought forward by well known Aquinas scholars such as Geiger and Fabro
