The Untouchables:

The Untouchables Eliot Ness, Oscar Fraley, 1957

The Untouchables Oliver Mendelsohn, Marika Vicziany, 1998-04-30

In a sensitive and compelling account of the lives of those at the very bottom of Indian society Oliver Mendelsohn and Marika Vicziany explore the construction of the Untouchables as a social and political category the historical background which led to such a definition and their position in India today The authors argue that despite efforts to ameliorate their condition on the part of the state a considerable edifice of discrimination persists on the basis of a tradition of ritual subordination Even now therefore it still makes sense to categorise these people as Untouchables The book promises to make a major contribution to the social and economic debates on poverty while its wide ranging perspectives will ensure an interdisciplinary readership from historians of South Asia to students of politics economics religion and sociology

Deliège, 1999-06 The subjugation of millions of people in a caste system that is a radical form of apartheid has long had its critics both from within India and from outside it Although the government has introduced equal opportunity legislation in an effort to right some of history's wrongs untouchability is an accident of birth that continues to stigmatize and ostracize more than one hundred and forty million people Untouchables remain on the bottom of the socioeconomic scale and are found more often than not in unskilled low status occupations They are forbidden to enter temples often beg for their food must leave their chests uncovered and silently endure public humiliations and insults They remain on the fringes of society and it is even said by some that their shadows pollute passersby This excellent book addresses the problem of untouchability by providing an overview of the subject as well as penetrating insights into its social and religious origins The author persuasively demonstrates that untouchability is a deeply ambiguous condition neither inside nor outside society reviled yet indispensable untouchables constitute an original category of social exclusion This is reflected in the various social movements they have led over the last century and more The situation of untouchables is crucial to the understanding of

caste dynamics especially in contemporary circumstances but emphasis particularly within anthropology has been placed on the dominant aspects of the caste system rather than on those marginalized and excluded from it This important book redresses this problem and represents a vital contribution to studies of India Hinduism human rights history sociology and anthropology
