Amateur detective Mallory Viridian s talent for solving murders ruined her life on Earth and drove her to live on an alien space station but her problems still follow her in this witty self aware novel that puts a speculative spin on murder mysteries from the Hugo nominated author of *Six Wakes* From idyllic small towns to claustrophobic urban landscapes Mallory Viridian is constantly embroiled in murder cases that only she has the insight to solve But outside of a classic mystery novel being surrounded by death doesn t make you a charming amateur detective it makes you a suspect and a social pariah So when Mallory gets the opportunity to take refuge on a sentient space station she thinks she has the solution Surely the murders will stop if her only company is alien beings At first her new existence is peacefully quiet and markedly devoid of homicide But when the station agrees to allow additional human guests Mallory knows the break from her peculiar reality is over After the first Earth shuttle arrives and aliens and humans alike begin to die the station is thrown into peril Stuck smack dab in the middle of an extraterrestrial whodunit and wondering how in the world this keeps happening to her anyway Mallory has to solve the crime and fast or the list of victims could grow to include everyone on board *Chaos Terminal* Mur Lafferty,2023-11-07

Mallory Viridian would rather not be an amateur detective and fled to outer space to avoid it but when one of the new human arrivals on a space shuttle is murdered she s back in the game Mallory Viridian would rather not be an amateur detective thank you very much But no matter what she does people persist in dying around her and only she seems to be able to solve the crime After fleeing to an alien space station in hopes that the lack of humans would stop the murders a serial killer had the nerve to follow her to *Station Eternity* Mallory deduced who the true culprit was that time too Now the law enforcement agent who hounded Mallory on Earth has come to *Station Eternity* along with her teenage crush and his sister Mallory s best friend from high school Mallory doesn t believe in coincidences and so she s not at all surprised when someone in the latest shuttle from Earth is murdered It s the story of her life after all Only this time she has more than a killer to deal with Between her fugitive friends a new threat arising from the Sundry hivemind and the alarmingly peculiar behavior of the sentient space station they all call home even Mallory s deductive abilities are strained If she can t find out what s going on and fast a disaster of intergalactic proportions may occur **America's Best! 100** C.
