DeGross, 2010-03-10 This book constitutes the proceedings of the 2010 Joint International Working Conference of the International Federation for Information Processing Working Groups 8 2 and 8 6 Both working groups are part of IFIP Technical Committee 8 the technical committee addressing the field of Information Systems IFIP WG 8 2 the International Association of Information Systems and Organizations was established in 1977 IFIP WG 8 6 Diffusion Transfer and Implementation of Information Technology was established in 1994 In accordance with their respective themes both IFIP WG 8 2 and IFIP WG 8 6 have long had an interest in the human impact of information systems In December 1998 they held a joint working conference in Helsinki Finland on the theme Information Systems Current Issues and Future Challenges The two working groups joint interest in and collaboration on research concerning the human side of IS is continued and extended through this joint working conference held on the campus of Curtin University of Technology from March 30 to April 1 2010 in Perth Western Australia This conference Human Benefit Through the Diffusion of Information Systems Design Science Research combines the traditional themes of the two working groups with the growing interest within the IS research field in the area of design science research *Eisenhower's Heart Attack* Clarence G. Lasby, 1997 Previous Eisenhower biographers

have touched on his heart condition but Clarence Lasby is the first to examine the impact of the president's health on the nation He offers a dramatic revisionist account of the events surrounding the president's 1955 heart attack and subsequent efforts by the president and his staff to minimize its political impact Drawing on newly opened medical records and personal papers of Eisenhower's physicians Lasby challenges virtually everything we have believed about the president's heart attack Most disturbingly he has discovered that the president's personal physician Dr Howard Snyder misdiagnosed the attack as a gastrointestinal problem and waited ten hours before sending Eisenhower to the hospital Lasby also sets the record straight on how the president and his aides managed the public's understanding of events and he offers evidence that Eisenhower Dr Snyder and press secretary James Hagerty withheld and recast information to serve the president's political priorities Equally important Lasby's book offers a touching portrait of a proud man faced with a debilitating disease It examines Ike's private struggle to lead a full life despite his condition and analyzes his decision to seek a second term even against the advice of cardiologist Paul Dudley White It also shows how a man who had always carefully joked after his health now became obsessed with it
