Waiting For The Weekend:

Waiting for the Word Ulmon Bray, 2007-03 My daughter described the book as Dad's coming of age statement and I suppose that's a fairly accurate observation. It's an attempt to describe the successes and failures experienced by individuals who were totally innocent of the standards of military life. With few exceptions, the men, both officers and NCOs who dominated my tour of duty during World War II had little or no military background. We were all learning on the go. The average age in our Air Group must have been somewhere in the twenties at the most since there were so very many of us just entering our third decade of life. That fact alone supported the notion that our view of the world was based on something other than experience. In my case, in spite of being on my own during my senior year in high school and at the post-high school Summer session with the Little Theatre of the Rockies at Colorado State followed by the two or three months working in the Kaiser shipyards in Richmond, California, decisions made during that time weren't all that responsible or independent. Someone was always nearby to monitor or more accurately to mentor most of the things I did. And before that, there was little or no independent thought or behavior that wasn't shaped or colored by the poverty and pressures of life during the great depression that frustrated any attempt at individual action. On the contrary, effort was concentrated on the well-being and survival of the family as a viable unit. It was selfish and irresponsible to go off on one's own. Even though the Navy provided considerable shelter for its young recruits and certainly didn't encourage individual behavior over that of the group, it expected responsible compliance with its rules and regulations, whether individually or otherwise. And so it was at the age of eighteen years, three months, I entered the maze of activities designed not only to produce an able seaman but would most certainly turn boy into a man. The events and accompanying experiences that occurred during the several levels of training and more than seven months of combat duty contributed to the growth of technical as well as social skills which, in the long view, might have been of much greater importance. It was the interaction with other people that created the most memorable events that are described here. The military deeds were necessary, but it was the men who supported my efforts to do my share who remain forever on the shadows of my memory.

Waiting for the Cubs Floyd Sullivan, 2014-01-10 This is a memoir of a diehard, a diehard fan who drove himself and his family half-crazy to get to Cubs games that were 700 miles away from their home. Along the way, Sullivan recounts the history of Cubs baseball, including events from the 1908 season as well as reminiscences from other fans and stories of his own experience following a team that has gone more than a century without attaining that final win that would make them world champions.

The Weekend Effect Katrina Onstad, 2017-05-02 Encroaching work demands, coupled with domestic chores, overbooked schedules, and the incessant pinging of our devices have taken a toll on what used to be our free time, the weekend. With no space to tune out and recharge, every aspect of our lives is suffering, our health is deteriorating, our social networks, the face-to-face kind, are dissolving, and our productivity is down. The notion of working less and living more, once considered an American virtue, has given way to the belief that you

must be on 24 7 Award winning journalist Katrina Onstad pushes back against this all work no fun ethos Tired of suffering from Sunday night letdown she digs into the history positive psychology and cultural anthropology of the great missing weekend and how we can revive it Onstad follows the trail of people companies and countries who are vigilantly protecting their time off for joy adventure and most important purpose Filled with personal and professional inspiration The Weekend Effect is a thoughtful well researched argument to take back those precious 48 hours and ultimately to save ourselves
