connective infrastructure and spatially targeted interventions By calibrating the blend of these instruments today s developers can reshape their economic geography If they do this well their growth will still be unbalanced but their development will be inclusive Book cover Sustaining and Sharing Economic Growth in Tanzania Robert J. Utz,2008 Far reaching macro economic and structural reforms combined with increases in government spending have been the primary drivers of Tanzania s growth acceleration As growth in government spending slows the locomotive for growth will need to shift to increased demand for exports and domestically produced goods requiring Tanzania to strengthen substantially its international competitiveness accelerate structural change and safeguard the environment while maintaining macroeconomic stability For Tanzania s poor to be able to participate and benefit from important growth a greater focus on rural development improved governance of the management of Tanzania s natural resources and better targeting of social services to the poor is suggested Successful design and implementation of a shared growth strategy will also require a strengthening of policy management and coordination in Tanzania to ensure that scarce human and financial resources are effectively deployed Gender and Economic Growth in Tanzania Amanda Ellis,World Bank,2007 The World Bank Group recognizes the critical importance of women s contribution to shared economic growth especially in Africa Women s important contribution to economic activity in Tanzania is well recognized In the 2006 World Economic Forum Global Gender Gap report Tanzania was ranked number 1 globally out of 115 countries in terms of women s economic participation This paper includes the following headings gender and economic growth in Tanzania starting and closing a business access to land and site development access to finance operating a business taxation infrastructure and access to day care labor laws how they affect women access to commercial justice access to international trade and the way forward Regional Integration in Southern Africa ,2006 **World Resources, 2005** World Resources Institute,2005 Ecosystems are or can be the wealth of the poor For many living in severe poverty there has always been a daily lifeline an asset for those with few other material assets This text argues that the generative power of nature can act as a fundamental stepping stone in the economic integration of the poor Frontline Issues in Nutrition Assistance ,2006 *HIV/AIDS and Work in a Globalizing World*, 2005 International Labour Office,2006 This report highlights the intrinsic links between poverty HIV AIDS movement for work and globalisation The negative impact of the epidemic on health and the quality of the labour force which deters foreign direct investment is underscored and assessed The report provides estimates of populations at risk of HIV AIDS because of the impact of poverty in 34 countries in Sub Saharan Africa Asia Latin America and the Caribbean and in the more developed regions It discusses the links between HIV AIDS and the movement of persons in search of work in the course of their work and in the travel and leisure industries and outlines the changes needed to address and manage the HIV AIDS epidemic at enterprise national and global levels
