Green Innovation in Central and Eastern Europe Iryna Bashynska, Dagmara Lewicka, Svitlana Filyppova, Olha Prokopenko, 2024-11-04 Green Innovation in Central and Eastern Europe aims to explore the crucial role of green innovation in guiding organisations towards sustainable development amidst contemporary environmental challenges It comprehensively examines the concept of the green economy highlighting its essential features and its significance in promoting organisational sustainability The study delves into the global state of green economy development analysing trends in renewable energy circular economy practices and green technology innovations Additionally it investigates the role of international organisations in supporting the green economy and its impact on global trade and business opportunities The monograph also addresses strategic planning processes that enable enterprises to integrate sustainability goals into their business strategies with a focus on social and environmental aspects It evaluates recycling as a central component of the circular economy considering its economic and environmental impacts and underscores the importance of green leadership in fostering a sustainable organisational culture through ethical decision making and environmental considerations The book will cater to a diverse audience including professionals researchers policymakers and business leaders committed to steering organisations towards sustainable development It serves business executives and managers looking to integrate eco conscious strategies within their organisations researchers and academics in environmental science and business management policymakers involved in crafting environmental policies and environmental advocates seeking practical approaches to advance green initiatives The content is particularly pertinent to professionals in the European Union and Central and Eastern European countries with specific insights and case studies from

Poland Estonia and Ukraine **Management and Marketing for Improved Retail Competitiveness and Performance**

Santos, José Duarte, Pereira, Inês Veiga, Pires, Paulo Botelho, 2023-07-28 The growth of companies online presences is an unquestionable reality However not everything goes online and the physical presences of companies continue to exist with the physical retail point of sale as a place for experimentation and immediate consumption brand showroom and support for online sales which are fundamental to the shopping experience Managing a retail point of sale implies acting on several fronts bearing in mind the market requirements the point of sale s brand strategy the strategies of the brands being sold and all other aspects related to the management of a business while considering the specificities of a retail point of sale Management and Marketing for Improved Retail Competitiveness and Performance provides knowledge and skills to allow readers to understand and apply the different concepts techniques and tools to manage a retail point of sale in the various aspects of a business Covering key topics such as advertising client loyalty and merchandising this premier reference source is ideal for business owners managers marketers researchers scholars academicians practitioners instructors and students

Artificial Intelligence and Responsible Management Education Noha El-Bassiouny, Wolfgang Amann, Dina El-Bassiouny, Christian Hauser, 2025-10-23 Artificial Intelligence and Responsible Management Education Artificial Intelligence AI offers considerable opportunities as well as challenges to management education and research This book brings together case studies and best practice examples of the use of AI in advancing diverse fields relating to Responsible Management Education RME Moving beyond the conceptual questions about the use of AI in management education the book identifies the real world application of AI and showcases exemplary policies related to AI and its role in advancing responsible management in higher education institutions Interesting cases include the development of curricula AI powered personalized learning the implications of using AI in short answer grading and the utilization of AI in auditing and investment The book is relevant to educators and scholars worldwide as well as managers of universities and business schools as they navigate what it entails to advance responsible management education in the AI era *Advancements in Textile Coloration*

Mohammad Shahid, Saptarshi Maiti, Shafat Ahmad Khan, Ravindra V. Adivarekar, 2025-08-02 The book highlights the latest innovations in sustainable textile dyeing and printing addressing the industry s growing need for eco friendly solutions This comprehensive book covers many topics including waterless dyeing air and dope dyeing technologies electrochemical dyeing and bio based mordants and colorants It also delves into microbial dyes statistical approaches for optimizing coloration and advanced surface modification techniques Additionally the book examines the evolution of textile printing from conventional to digital methods and discusses strategies for mitigating textile effluent pollution With a strong emphasis on sustainability this resource is invaluable for researchers industry professionals and academicians committed to advancing responsible textile coloration practices Future Priorities for Design, Branding, Marketing and Retail Courtney Chrimes, Rosy Boardman, T C Melewar, Charles Dennis, 2025-09-22 Embracing technology as an ally Future Priorities for Design Branding

Marketing and Retail unravels the transformative role it plays in amplifying brand resonance propelling a seismic shift in the fabric of communication between brands and their audience

Applying Reduced Impact Logging to Advance Sustainable Forest Management Asia-Pacific Forestry Commission,2002

Sustainable Technologies for Fashion and Textiles Rajkishore Nayak,2019-12-01 Sustainable Technologies for Fashion and Textiles combines the latest academic research and industrial practices to shed light on a wide range of activities that influence how the textiles industry affects the natural environment Pressure from regulators customers and other stakeholders has pressed companies to translate general sustainability concepts and ideas into business practices This is leading to improvements in how the industry consumes water electricity and chemicals and to a reduction in the amount of waste generated by textile processes This book groups approaches to these topics under four themes fiber yarn and fabric production chemical processing garment manufacturing and recycling Addresses sustainability challenges that occur throughout the supply chain from the sourcing of raw materials to recycling finished products Provides introductions to sustainability both in general and within the textiles industry making this topic accessible for readers of all backgrounds Compares the advantages and disadvantages of different approaches to sustainability helping readers avoid pitfalls when devising their own strategies

From an Ethic of Sufficiency to its Policy and Practice in Late Capitalism Manu V. Mathai,Sylvia Lorek,Wolfgang Sachs,2023-12-13 That the notion of sufficiency is essential for a good life is an idea that enjoys support across many ethical philosophical religious and cultural persuasions This notion reasserted itself in the study of sustainability once modern society reluctantly took cognizance of the limited low entropy energy and matter available for human appropriation There is today therefore a general recognition of i e not necessarily wide agreement on the merits of or needs for notions of sufficiency as a species of environmentalism within secular communities In this context a critical question that invites our attention is how to effect sufficiency and in particular of dealing with the daunting challenge of injustice as well as questions of distribution within and between countries that it brings to attention Given sufficiency s original home as it were in tradition the modern world has tended to dismiss it or to plead to individual voluntary simplicity when faced with evidence asserting its necessity Sufficiency is also often written away as a spiritual problem The domain of ascetics and the religious How to habilitate sufficiency in a political economy for the secular modern facing its biggest existential challenge yet in the form of the environmental crisis
