Adulthood Manfred Liebel, Philip Meade, 2026-03-10 Despite global advances in children's rights young people are routinely disregarded, overpowered, and excluded. This persistent discrimination, known as adulthood, permeates family life, education, urban design, legal systems, and political discourse. In this groundbreaking book, the authors provide a comprehensive introduction to adulthood from an academic perspective while also emphasizing its practical implications. Drawing on rich, real-world examples and research, they analyse it as a systemic form of discrimination, exploring how it evolved and is reproduced through language, institutions, and everyday practices. Timely, accessible, and urgent, this book offers a vision for resistance and transformation, outlining how adulthood can be challenged by both adults and young people to co-create a more equitable future.

Total Marketing: The business of integrating consumers, employees, and company networks Mara Cassinari, Frank Pagano, 2025-10-14 Exponential technologies are giving superpowers to humans and data, unlocking tremendous value with major efficiencies to be gained while running the planet. In today's digital age, to use the marketing jargon, creating connections that are seamless, efficient, and technology-driven is not just an advantage; it's a necessity for businesses of all sizes, public and private. Welcome to the world of Total Marketing, namely a comprehensive and holistic approach that brings together all stakeholders into a cohesive and interconnected ecosystem powered by tech. A new marketing needs experiences that are heavily imbued with technology. To use Gartner's terminology, it needs a Total Experience as its foundation. Total Marketing is created by an ever-changing layer of exponential technologies, among which AI, of course, and blockchains, and by the need for a culture change across the whole web of consumers, employees, and suppliers. The truth is we are all linked, and our goal should be to increase social capital for everyone and reach service excellence with minimum impact on the outer community and zero noise and negative externalities.
