Soviet Local Politics and Government Everett M. Jacobs, 2024-04-12 *Soviet Local Politics and Government* 1983 examines the local government system of the Soviet Union an important part of the great bureaucracy that ran the country The leading experts contributing to this book look at the wide range of duties that the local soviets managed including supervision of the economic plan in their area control over construction and agriculture healthcare housing transport and infrastructure and the attempts to adapt the local government system to new circumstances and requirements *Local Government in the Soviet Union* Cameron Ross, 2024-04-12 *Local Government in the Soviet Union* 1987 analyses the Soviet Union s limited success in improving local government between in the 1960s to 1980s as the country made a drive toward centralized policy control It examines the institutional framework and changes in crucial policy areas and argues that a fragmented vertical power structure involving the three bureaucracies of Party ministries and the city and regional soviets was unproductive It shows how group interests moulded and adapted policies and how the Party s initiative in centralizing policy was thwarted It also outlines the significance of the industrial base in determining local budgets and the provision of amenities as opposed to overtly political factors

Soviet Grassroots Jeffrey W. Hahn, 2017-03-14 Jeffrey Hahn examines the degree to which citizens who are elected to local government in the USSR can successfully represent the interests of those who elected them More specifically how effectively do the mechanisms available for citizen participation in local government work in practice What can elected deputies do to respond to the expressed needs and preferences of their constituents Basing his conclusions on interviews with local deputies observations of local soviets at work and the analysis of a wide range of primary source material the author finds that Soviet citizens do have some chances to participate meaningfully in local government and that a basis exists for the continued expansion of such participation The elected deputy can and occasionally does play an active role as an ombudsman for those who choose to use opportunities for citizen input *Soviet Grassroots* not only contributes to our empirical knowledge of political participation in the USSR but also provides a basis for speculation about the nature of political change in the Soviet system If opportunities for effective participation in local government do exist and they can be shown to have grown over time then one precondition for the emergence of a civic culture in Soviet society already exists Originally published in 1988 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

There are many reasons why it is important to study local politics political culture government political process in Communist party states As in all politics local politics in Communist party states are the political articulation of the local community This is the political arena where policies concerning local issues are formulated by the officials This is where the officials are

approached by citizens with their particular demands This is where citizens articulate their preferences aspirations and values through political participation And this is where officials both elected and appointed are recruited In this volume Daniel N Nelson has assembled a team of international scholars to consider local politics in Communist party states including the U S S R China Poland Yugoslavia and Romania Together they explore how local social and political forces are articulated in the national and party organizations they also reveal how the study of comparative local politics provides vitality for the study of national politics Rather than treating local communities as receivers and translators of national inputs the contributors demonstrate that the local dimension and national politics mutually influence one another and illuminate the social reality in communist societies
