Douglas Brubaker,2005-01-01 The issues surrounding the regimes of ice covered areas international straits and passage

rights of State vessels are analysed for the purpose of assessing the status of law and State practice in Russian Arctic waters Passage through the Northern Sea Route has for decades been one of the most contentious legal issues in Soviet Russian U S relations The jurisdictional claims of the large Arctic coastal States indicate substantial deviation from application of established law of the sea The regimes of straits used for international navigation and passage rights of State vessels seem subordinate to the regime of ice covered areas The main finding is that there are certain elements of consistency in the common interpretation of existing law and the behaviour of these States These elements seem to have put into action the process of formation of a specific customary international law as well as implementation and interpretation of the law under the Vienna Convention on the Law of Treaties

Glantz,Jonathan Mallory House,1995 By the time Pearl Harbour had ripped apart America s peacetime pretensions the German blitzkrieg had already blasted the Red Army back to the gates of Moscow Yet less than four years later the Soviet hammer and sickle flew above the ruins of Berlin stark symbol of a miraculous comeback that destroyed the German army and shattered Hitler s imperial designs

**The Law of the Sea and Northeast Asia** Hŭi-gwŏn Pak,2000 The Law of the Sea is a vast and multi faceted area of international law The 1982 United Nations Convention on the Law of the Sea and the Agreement relating to the implementation of Part XI of the Convention constitute essential instruments of the law of the sea governing a new maritime order for the international community With its entry into force on November 16 1994 the 1982 United Nations Convention on the Law of the Sea has virtually become the Magna Carta of the Oceans or the Constitution for the Oceans Testifying to its success is the number of Parties adhering to it now totaling 132 States including one international organization the European Community The world is entering the era of a New Maritime Order based on near universal adherence to the United Nations Convention on the Law of the Sea In the wake of the Convention s entry into force and its ratification by many States in Northeast Asia a new maritime order is emerging in the region The littoral States have enacted and promulgated new national legislation to incorporate the provisions of the UN Convention into their domestic legal order The three littoral States China Japan and South Korea concluded or initialed bilateral fisheries agreements based on the new concept of extended jurisdiction set forth by the UN Convention The UN Convention will however present even more challenges than opportunities for the littoral States of Northeast Asia in their quest for a new maritime order The maritime security situation in the region has been and will continue to be extremely volatile due to conflicting claims disputed boundaries unregulated pollution of the marine environment and widespread illegal activities at sea The author has set the both pragmatic and ambitious aim of outlining the emerging maritime order in Northeast Asia As a practitioner of the law of the sea who has participated in bilateral and multilateral negotiations on maritime affairs the author sheds light on the new maritime order in the making at the international and regional levels The author also delineates the main issues and disputes hindering the establishment of a

new maritime order in the region and present policy options that could contribute to erecting a solid maritime order in the region by peaceful and cooperative means Finally the author presents a compilation of relevant legal texts most of which were produced after the entry into force of the UN Convention in the hope that this collection will prove useful for desk officers in charge of ocean affairs in promoting peaceful and constructive solutions for maritime issues in Northeast Asia This work serves as a realistic analysis of the current law and State practice as well as of the progressive development of the law of the sea and its codification in the wake of the entry into force of the 1982 UN Convention
