Soviet Photograph 1924 1937:

The Soviet Photograph, 1924-1937 Margarita Tupitsyn, 1996-01-01 Tupitsyn challenges the view that the Soviet avant garde peaked in the 1920s and was subsequently forced to conform with Bolshevik politics. Instead she asserts that photography during this period represented the last great experiment in the search for the most effective ways to connect art, radical politics and the masses. Investigating the means by which the new visual tools for disseminating revolutionary messages were adapted to the needs of Stalinist propaganda, Tupitsyn relates major examples of single frame photography and photomontage to such events as the implementation of the New Economic Policy, Lenin's death and Stalin's first and second Five Year Plans and to mounting censorship of the arts. She also establishes a link between the writings of critics and the development of photography and photomontage at this time. The book presents previously unpublished material from Klutis's letters, Rodchenko's public lectures, Lissitzky's late writings on the mass media and Kulagina's personal diaries as well as many previously unknown photographs.

Snapshots of the Soul Molly Thomasy Blasing, 2021-07-15. *Snapshots of the Soul* considers how photography has shaped Russian poetry from the early twentieth century to the present day. Drawing on theories of the lyric and the elegy, the social history of technology and little known archival materials, Molly Thomasy Blasing offers close readings of poems by Boris Pasternak, Marina Tsvetaeva, Joseph Brodsky and Bella Akhmadulina as well as by the late and post Soviet poets Andrei Sen-Senkov, Arkadii Dragomoshchenko and Kirill Medvedev to understand their fascination with the visual language, representational power and metaphorical possibilities offered by the camera and the photographic image. Within the context of long standing anxieties about the threat that visual media pose to literary culture, Blasing finds that these poets were attracted to the affinities and tensions that exist between the lyric or elegy and the snapshot. *Snapshots of the Soul* reveals that at the core of each poet's approach to writing the photograph is the urge to demonstrate the superior ability of poetic language to capture and convey human experience. Photography and Political Repressions in Stalin's Russia Denis Skopin, 2022-03-29. This book is devoted to the phenomenon of removal of people declared public enemies from group photographs in Stalin's Russia. The book is based on

long term empirical research in Russian archives and includes 57 photographs that are exceptional in terms of historical interest all these images bear traces of editing in the form of various marks such as blacking out excisions or scratches The illustrative materials also include a group of photographs with inscriptions left by officers of Stalin s secret police the NKVD To approach this extensive visual material Denis Skopin draws on a wealth of Stalin era written sources memoirs diaries and official documents He argues that this kind of political iconoclasm cannot be confused with censorship nor vandalism The practice in question is more harrowing and morally twisted for in most cases the photos were defaced by those who were part of victim s intimate circle his her colleagues friends or even close family members The book will be of interest to scholars working in history of photography art history visual culture Russian studies and Russian history and politics
