Past Master R. A. Lafferty, 2019-10-03 Wolf Hall meets The Man in the High Castle in this mind bending science fiction classic now presented in an authoritative new edition from Library of America Plucked from time Sir Thomas More arrives on the human colony of Astrobe in the year 2535 A D where there is trouble in utopia Can he and his motley followers save this golden world from the Programmed Persons and the soulless perfection they have engineered The survival of faith itself is at stake in this thrilling uncategorizable wildly inventive first novel but the adventure is more than one of ideas As astonishingly as Philip K Dick and other visionaries of the 1960s new wave Lafferty turns the conventions of space opera science fiction upside down and inside out Here are fractured allegories tales within tales twinkle in the eye surprises fantastic byways and alien subjectivities that take one's breath away Neil Gaiman has described Lafferty a genius an oddball a madman Gene Wolfe calls him our most original writer Long hailed by insiders and now with an introduction by Andrew Ferguson as well as unpublished omitted passages included in the notes Past Master deserves to perplex and delight a wider audience
