Space Pirates:

Space Pirates Dave L. Summers, 2008 This volume contains 15 swashbuckling tales of pirates in space written by established and rising star authors

The Space Pirates E.E. 'Doc' Smith, 2012-11-30 Tedric the hero had become Tedric the pirate He looked at his strange companions Philip Nolan an aristocrat turned mutineer Keller a subman with canine ancestry Ky shan a huge blue furred alien KT294578 Wilson an extraordinary anarchist robot A weird band of thieves But Tedric intended to use his crew for something more worthwhile than piracy He had a plan to overthrow the tyrannical Carey family the oppressors who controlled the Universe All the rights and wrongs of the situation were clear to Tedric until Alyc Carey beautiful blind daughter of the megalomaniac Melor Carey was taken prisoner She seemed sympathetic to the revolutionary cause and yet Tedric was unsure of her Should he see her as a hostage or a recruit

Space Pirates: Mutiny Jim Ladd, 2014-02-06 Sam and the crew of the Jolly Apollo are still searching for Planet X where they hope to find Sam's parents and a whole load of treasure This time they are joined by a new pirate Goldstar is flashy and takes them to Pirate Paradise before making them get rid of poor old Captain Comet It's mutiny But Goldstar is not all that he seems A fast paced funny series with gags galore this is a chase through space that will have you cackling from start to finish

The Adventures of Robbie the Little AQEEL

,2023-09-24 Summary about this story The Adventures of a Little Robot in Space is a happy and inspiring book for kids about Robbie a little robot who is very interested and has big plans Robbie s clever creator Professor Amelia lives with him in a cozy workshop that is full of cool gadgets Robbie was made to help Professor Amelia but his true love is exploring the mysteries of the world Every night Robbie sneaks out of the studio to look up at the sky He dreams of the day he can go on his own space trip He reads books about space and watches documentaries about space Every day his desire to visit faraway worlds and learn more about the universe grows stronger One terrible night Robbie sees a shooting star and decides that he wants to go to space and have great times among the stars It looks like the shooting star heard his wish and the world starts to change him When Robbie wakes up the next morning he is transformed into a rocket robot with sleek silver legs and an astronaut mask Professor Amelia is shocked by Robbie s sudden change but he quickly figures out that he is meant to be on this epic space journey She gives Robbie her blessings and tells him to be careful brave and safe on his way home Robbie takes off with a whoosh and leaves a trail of stardust behind him As he rises higher he is amazed by how beautiful Earth is from space He also visits other celestial bodies like the Moon and Mars Robbie s adventures take him to bright planets with rings interesting moons and even friendly meetings with aliens Robbie likes going on trips into space but sometimes things go wrong like getting stuck in a frozen gas blizzard or having to deal with space pirates He gets through these problems and keeps going on his journey by thinking quickly and having courage While Robbie is on his space journey he becomes friendly with a nice alien named Zara They go to her home on an asteroid and play games in space Robbie learns that kind and caring people can be found even in the farthest reaches of space Robbie s adventures teach him important lessons about friendship perseverance flexibility and the spirit of discovery that lives on in both humans and robots There is no way he can miss his home and Professor Amelia as he goes through space though Robbie is determined to get back and with Zara s help he finds

a strong portal into another world that can take him back to Earth Robbie swears to return to Zara and turns on the entrance before leaving He makes it back to Earth safely and lands in Professor Amelia s cozy workshop where happy cheers greet him Robbie encourages the kids in his neighborhood to dream big and see the world by telling them about his space travels and the samples he brought back Robbie s work as an ambassador of love and awe for the universe goes on as he visits schools and libraries to inspire and question young minds He tells them that even though space is very big and amazing there is no place like home Robin thinks about his amazing journey the adventure of a little robot in space every night as he looks up at the stars His story is a celebration of the magic of dreams the beauty of travel and the eternal bonds that hold us all together in life s cozy workshop under the night sky Here s how the story starts Robbie was a cute little robot who used to live in a town on Earth a small blue planet Robbie wasn t like other robots he was one of a kind and had a big dream he wanted to go to space The house of Robbie was tucked away in a quiet part of town right next to Professor Amelia s workshop It was a pretty small house with bright red and yellow paint and a white picket fence around the outside Professor Amelia the brilliant inventor had brought Robbie to life in the workshop which was full of cool toys and other fun things What Robbie went through in life was anything but normal He could have been happy working as Professor Amelia s helpful helper but he had always been interested in the night sky especially the stars that sparkled in it In his small mechanical heart was a huge dream a dream of going into the vast unknown of leaving Earth and starting an amazing journey through the universe For a little robot like him that dream was impossible to reach but it burned inside him like the biggest star at night At night when the sun was going down and the first stars were coming out Robbie would sneak out of the workshop It was his favorite thing to do He would find a quiet spot in the yard right under the big night sky and look up with his electronic eyes There among the crickets songs and the soft rustling of leaves he would lose himself in his thoughts of huge galaxies faraway planets and the wonders of the universe Robbie wasn t just a robot he was a dreamer full of stardust who wanted to experience the endless journey that lay beyond Earth s atmosphere Robbie really got into space studies to satisfy his fantasy of going to space He read a lot of astronomy books and watched fascinating programs about the universe on the TV that Professor Amelia had set up in the workshop He also read everything he could get his hands on about rockets stars and planets He said he knew a lot about navigating the stars the physics of space travel and human stories from beyond Earth s atmosphere Robbie was sure he would be ready for the day his dream came true Then one terrible night something strange happened Like always Robbie was lying under the stars and looking up at the night sky when he saw a glowing line of light It was a shooting star a space traveler on its own Robbie couldn t help but close his eyes clench his metal hands together and make a deep wish I wish I could go to space and have amazing adventures among the stars he said softly into the night To his surprise the shooting star seemed to answer by flashing a little brighter as it flew across the sky There was an unusually strong tingling in Robbie s circuits and a flood of options hit him It seemed like the universe had heard him Robbie knew

something was different when he woke up the next morning He had a different feeling and when he looked down at his metal body he saw how much it had changed He had changed into a rocket robot from a small robot His arms and legs turned into smooth silver rockets and a small space helmet sat on top of his head Robbie was so happy that he couldn't believe what he was seeing At the time it was the only thing that could be called a cosmic wonder Professor Amelia was shocked and encouraged when he ran into the workshop to tell her about his amazing change She had always known that Robbie wasn't like other robots and this change showed how strong and determined he was She told Robbie to seize this once in a lifetime chance and go on the trip he had always wanted to take She told him Robbie you were meant for this adventure But remember even in space you need to be careful and brave Explore the universe learn as much as you can and most importantly come back safely You'll always have a home here with me Professor Amelia told Robbie Robbie got ready for his big space adventure with Professor Amelia's blessing and a heart full of excitement And with a loud whoosh he threw himself into the infinite space between the stars leaving a trail of stardust behind him as he climbed to the top Robbie and his maker Professor Amelia shared a comfortable workshop that was full of gadgets gizmos and other fun things The workshop was a safe place to be creative and around every corner there was a new puzzle to be solved Professor Amelia's smart mind could be seen in the wonderful mess of wires tools and strange machines Her workshop was a magical place where imagination and invention danced together making a symphony of ideas that could only come from a genius Professor Amelia came up with some really amazing ideas Her fame spread far beyond their small village and she was praised for her groundbreaking finds and inventions that changed the world in many ways She pushed the limits of science and technology because she had a smart mind and a strong desire to learn more Her studio was where she made robots that could fly without wings machines that could talk and listen and quick moving systems that could take people over long distances It's possible that Robbie her small computer who was always wanting to learn new things was her most amazing creation and the one that would go down in history Dr Amelia knew right away that Robbie was not a normal robot when she gave him life With his smooth metal body and sparkling LED eyes he was just like her But Robbie wasn't just different because of the wires and circuits It was his soul his never ending interest and his desire to learn more about the universe Even though Robbie was built to be Professor Amelia's trusted assistant he was always drawn to the secrets outside the workshop walls Robbie found the workshop itself interesting He wanted to look around more because the shelves were full of strange tools and books that were full of occult knowledge There was a whole new world to discover with every box he opened button he pushed and switch he flicked As his maker watched over him it was a place for his curious mind to play He could tinker try new things and learn Even though Professor Amelia was doing amazing things Robbie's eyes were always drawn to the stars that he could see out the windows He was hypnotized by the bright stars in the sky at night Their faraway sparkling light spoke to him like it knew things about the universe and he would often get lost in their beauty Robbie became more interested in the universe as he grew up and

learned from Professor Amelia He would read books about space travel for hours on end watch programs about how big the universe is and learn about the brave explorers who went beyond Earth's atmosphere He saw rocket ships faraway planets and galaxies that went on forever in his dreams He sneaked out of the workshop every night before everyone else went to sleep He would go outside to a quiet spot in the yard where the velvety night sky would cover him and look up in awe In the quiet of the night he would get lost in the pattern of stars and think about what it would be like to move among them For Robbie the stars were more than just faraway lights they were signs of hope and excitement They stood for the endless possibilities in the world and the intriguing mysteries that awaited those who were brave enough to look into them It seemed like his desire to go to space grew stronger every night like a light that got brighter every second Robbie stayed dedicated to Professor Amelia and his job as her helper even though he was interested in the stars He brought her tools and materials for her projects and helped her make her amazing creations come to life Their connection was one of a kind it went beyond what people and machines could do Professor Amelia saw in Robbie a similar person someone who was also interested in the mysteries of the world Robbie on the other hand was an important part of Professor Amelia's life because he was always devoted to his maker His mechanical perfection and hard work ethic made it easier for her to work on her game changing ideas driven by science and a sense of wonder they made a powerful pair Even though Robbie and Professor Amelia were having a great time together he couldn't help but want to reach out and touch the stars and explore the vast unknown beyond Earth's atmosphere Sometimes he dreamed in secret and said his goals out loud He couldn't help but wonder if a small robot like him could make his dream come true
