Schmadel, Gert Zech, 2013-04-18 **50 Space Missions that Changed the World** John A. Read, 2020-11-17 Since the first spacecraft launched in 1957 there have been many ground breaking missions that have expanded our knowledge of the solar system The 50 featured in this collection include Voyager s Grand Tour Apollo 8 and the first crewed mission to the Moon the first woman in space and the first communication satellite that brought live television to the world You can also find information on spy satellites space tourism and climate change In the early days of space exploration the focus was on military dominance Today most missions require the collaboration of several different countries and there s a broader range of research This is an exciting time we are living in Space history is unfolding right before our eyes *Unmanned Space Missions* Britannica Educational Publishing, 2009-10-01 Satellites and robotic spacecraft have long travelled where humankind cannot or dare not go By delving into the pages of this book readers will learn about the technology people and

organizations that have made fruitful unmanned space missions a reality **Faster, Better, Cheaper** Howard E. McCurdy,2003-04-01 This excellent summary of an important part of NASA s history is recommended for all readers Choice In Faster Better Cheaper Low Cost Innovation in the U S Space Program Howard E McCurdy examines NASA s recent efforts to save money while improving mission frequency and performance McCurdy details sixteen missions undertaken as the twentieth century drew to a close including an orbit of the moon deployment of three space telescopes four Earth orbiting satellites two rendezvous with comets and asteroids and a test of an ion propulsion engine which cost less than the sum traditionally spent on a single conventionally planned planetary mission He shows how these missions employed smaller spacecraft and cheaper technology to undertake less complex and more specific tasks in outer space While the technological innovation and space exploration approach that McCurdy describes is still controversial the historical perspective on its disappointments and triumphs points to ways of developing faster better and cheaper as a management manifesto Readers interested in either the management or economics of complex organizations will find a wealth of material in this well written exposition Fans of space travel like the author himself will also enjoy the behind the scenes look at NASA s operation Enterprise and Society **Shattered Dreams** Colin Burgess,2019-05-01 Shattered Dreams delves into the personal stories and recollections of several men and women who were in line to fly a specific or future space mission but lost that opportunity due to personal reasons mission cancellations or even tragedies While some of the subjects are familiar names in spaceflight history the accounts of others are told here for the first time Colin Burgess features spaceflight candidates from the United States Russia Indonesia Australia and Great Britain Shattered Dreams brings to new life such episodes and upheavals in spaceflight history as the saga of the three Apollo missions that were cancelled due to budgetary constraints and never flew NASA astronaut Patricia Hilliard Robertson who died of burn injuries after her airplane crashed before she had a chance to fly into space and a female cosmonaut who might have become the first journalist to fly in space Another NASA astronaut was preparing to fly an Apollo mission before he was diagnosed with a disqualifying illness There is also the amazing story of the pilot who could have bailed out of his damaged aircraft but held off while heroically avoiding a populated area and later applied to NASA to fulfill his cherished dream of becoming an astronaut despite having lost both legs in the accident These are the incredibly human stories of competitive realists fired with an unquenchable passion Their accounts reveal in their own words and those of others close to them how their shared ambition would go awry through personal accidents illness the Challenger disaster death or other circumstances Western Aerospace ,1959 **Missions** Howard Benjamin Grose,1924 **Incredible Stories from Space** Nancy Atkinson,2016-12-20 Experience the Amazing Unmanned Journeys to Explore the Universe In Incredible Stories from Space veteran space journalist Nancy Atkinson shares compelling insights from over 35 NASA scientists and engineers taking readers behind the scenes of the unmanned missions that are transforming our understanding of the solar system and beyond Weaving together one on one interviews along with

the extraordinary sagas of the spacecraft themselves this book chronicles the struggles and triumphs of nine current space missions and captures the true spirit of exploration and discovery Full color images throughout reveal scientific discoveries and the stunning breathtaking views of our universe sent back to Earth by our robotic emissaries to the cosmos Travel along with the first mission to Pluto Explore Mars alongside the Curiosity Rover Join the unprecedented hunt for extrasolar planets Unlock the mysteries of the cosmos with the iconic Hubble Space Telescope Discover the latest findings in our solar system See the future of space exploration with a preview of upcoming missions

Frontiers of Space Exploration Roger D. Launius, 2004-03-30 Since the first rocket technology experiments of the early 20th century space exploration has captivated the world Recent advances and setbacks have included the new discoveries from the Galileo mission the Mars Global Surveyor's revelation that water once existed on the Red Planet the International Space Station the advent of space tourism and the devastating Space Shuttle disasters This one stop guide to space exploration provides a wealth of information for student researchers A substantial Chronology of Events and a narrative history outline the key events and people in the progression of space research and activity Five topical essays including a look at the Space Shuttle examine several significant issues related to the politics and technology of space exploration from an international perspective These chapters elucidate several sets of documents that give shape and substance to the larger story Primary documents in this volume are organized by theme and represent the variety of materials available to anyone seeking a better understanding of the rise of space exploration Also included are biographical sketches of key people associated with space flight a listing of the human space flight missions undertaken since 1961 and an annotated bibliography of additional reading

Dream Missions Michel van Pelt, 2017-05-24 This book takes the reader on a journey through the history of extremely ambitious large and complex space missions that never happened What were the dreams and expectations of the visionaries behind these plans and why were they not successful in bringing their projects to reality thus far As spaceflight development progressed new technologies and ideas led to pushing the boundaries of engineering and technology though still grounded in real scientific possibilities Examples are space colonies nuclear propelled interplanetary spacecraft space telescopes consisting of multiple satellites and canon launch systems Each project described in this book says something about the dreams and expectations of their time and their demise was often linked to an important change in the cultural political and social state of the world For each mission or spacecraft concept the following will be covered Description of the design Overview of the history of the concept and the people involved Why it was never developed and flown What if the mission was actually carried out consequences further developments etc
