Analysis Systems: Using Computer Simulations and Geographic Information Systems Liu, Lin, Eck, John, 2008-01-31 In the last decade there has been a phenomenal growth in interest in crime pattern analysis Geographic information systems are now widely used in urban police agencies throughout industrial nations With this scholarly interest in understanding crime patterns has grown considerably *Artificial Crime Analysis Systems Using Computer Simulations and Geographic Information Systems* discusses leading research on the use of computer simulation of crime patterns to reveal hidden processes of urban crimes taking an interdisciplinary approach by combining criminology computer simulation and geographic information systems into one comprehensive resource

Breaking Rules: The Social and Situational Dynamics of Young People's Urban Crime Per-Olof H. Wikström, 2012-05-24 Breaking new ground in the study of crime in urban environments *Breaking Rules The Social and Situational Dynamics of Young People s Urban Crime* examines the findings theoretical basis and new methodology of The Peterborough Adolescent and Young Adult Development Study PADS This major longitudinal study investigates the role of the social environment on crime causation involving a cohort of 700 young

people from the age of 12 A particular aim of PADS is to employ a new theory known as Situational Action Theory as well as the innovative methodology of econometrics combined with space time budgets to improve the study of young people s offending and its changes By reviewing the current literature and analysing the theoretical and methodological problems of previous research the book explains how Situational Action Theory can help overcome central problems in criminological theorising Using this new and innovative framework it presents an analysis of the urban structure of Peterborough and its correlation to the differences in social life found in that area The variations in the urban environment are examined in terms of crime victimization and fear of crime and a detailed examination of young persons crime and its spatial patterns is offered through the unique space time budget data collected within PADS that enables analyses of young people their movements and crime involvement With implications for policy and prevention as well as being the first study of its kind this book should be of great interest to policy makers and practitioners interested in issues of urban environments as well as those studying crime in the urban environment and the role of the social environment in crime causation

Crime Modeling and Mapping Using Geospatial Technologies Michael Leitner,2013-01-19 Recent years in North America have seen a rapid development in the area of crime analysis and mapping using Geographic Information Systems GIS technology In 1996 the US National Institute of Justice NIJ established the crime mapping research center CMRC to promote research evaluation development and dissemination of GIS technology The long term goal is to develop a fully functional Crime Analysis System CAS with standardized data collection and reporting mechanisms tools for spatial and temporal analysis visualization of data and much more Among the drawbacks of current crime analysis systems is their lack of tools for spatial analysis For this reason spatial analysts should research which current analysis techniques or variations of such techniques that have been already successfully applied to other areas e g epidemiology location allocation analysis etc can also be employed to the spatial analysis of crime data This book presents a few of those cases
