Spaces Of Masculinities:

Spaces of Masculinities Kathrin Hörschelmann, Bettina van Hoven, 2013-03-07 Changing circumstances in Western and global societies have introduced new constraints and opportunities for men and the formation of male identities. Meanwhile the emerging diversity of atypical identities atypical when compared with traditional conceptions of middle class white heterosexual men poses new challenges for the production and use of spaces. *Spaces of Masculinities* provides a comprehensive introduction to the innovative and diverse research on spaces of masculinity. Drawing on a variety of geographical research projects the central concern of the book is to highlight the significance of research on masculinity in sociological and geographical work dealing with constructions of gender.

The Man Question Nancy E. Dowd, 2010-09-20 Among the many important tools feminist legal theorists have given scholars is that of anti essentialism all women are not created equal and privilege varies greatly by circumstances particularly that of race and class. Yet at the same time feminist legal theory tends to view men through an essentialist lens in which men are created equal. The study of masculinities inspired by feminist theory to explore the construction of manhood and masculinity questions the real circumstances of men not in order to deny men's privilege but to explore in particular how privilege is constructed and what price is paid for it. In this groundbreaking work feminist legal theorist Nancy E Dowd exhorts readers to apply the anti essentialist model so dominant in feminist jurisprudence to the study of masculinities. She demonstrates how men's treatment by the law and society in general varies by race economic position sexuality and other factors. She applies these insights to both boys and men examining how masculinities analysis exposes both privilege and subordination. She examines men's experience of fatherhood and sexual abuse and boys experience in the contexts of education and juvenile justice. Ultimately Dowd calls for a more inclusive feminist theory which by acknowledging the study of masculinities can broaden our understanding of privilege and subordination.
