**The Europeanisation of National Foreign Policy through EU membership: The Case of Spain** Ron Böhler,2017-09-28 Seminar paper from the year 2011 in the subject Politics Topic European Union grade 1 0 University of Bath language English abstract For the last thirty years Spanish foreign policy has had a single though double barrelled objective first integration in Europe secondly integration of Europe Torreblanca 2010 p 10 Not quite a decade after twelve European countries agreed on a Common Foreign and Security Policy CFSP national foreign policies among the EU have significantly been changed if not transformed by participation over time in foreign policy making at the European level White 2001 p 6 This indeed says little about the nature and direction of the changes that occurred and whether these conduced to general foreign policy convergence among EU

member states or perhaps even fostered greater divergence In recent years Europeanisation processes of national foreign policies have attracted more and more scholarly attention While some case studies focus on the European impact on Central and Northern European states for instance the Netherlands Denmark and Ireland Tonra 2001 others evaluate the distinctive features of the Big Three France the United Kingdom and Germany in EU foreign policy making Wong 2006 Gross 2009 Aggestam 2011 Forthcoming In contrast EU states in the Southern periphery have substantially been described as adaptive laggards that displayed remarkably resilient and distinctive features of state tradition and political culture despite the pressures of the EU Featherstone and Kazamias 2001 p 2 One of these countries Spain joined the European Union at a time when joint efforts to encourage a common foreign and security policy framework were still in the early stages of development It will be argued below that Spain at first assumed to be an enfant terrible within the European foreign policy framework turned out to be an enfant sage with greater ambitions From the viewpoint of social constructivism the changing behaviour as well as the active role that Spain took very early in European foreign policy will be portrayed Spain in the E.U. The Road to Economic Convergence M. Farrell, 2001-03-13 Spain and the EU takes the country's accession to the European Community in 1986 as its starting point and traces the changes in the national and regional economy the shifts in national economic policy and the fundamental restructuring of a public sector only recently enlarged as a result of the country's transition to democracy The book identifies the challenges that continue to confront the Spanish polity under monetary integration in the pursuit of convergence towards the EU model while retaining national cohesion Aimed at an academic and general audience the issues raised in this book have broader lessons for the management of integration at the national and sub national level particularly for new member states
