Gaining an Awareness and an Understanding of Life Thomas Kloevekorn, Walter Eckert, 2022-02-27 Life is a perfectly everyday thing to us We live our lives without knowing why How little do people know about why they are here on earth and about the mystery of life itself Why do we live What meaning do our lives have Many people today are no longer satisfied by the answers to these questions that the major religions offer Young people are looking for explanations doubt whether their lives have any meaning some of them slip away into the world of drugs or are otherwise led astray Thomas Kloevekorn has been concerned with these issues for more than four decades and has now written a spiritual guidebook to share his experience with others On the basis of his collaboration with the medium Walter Eckert he explains where the human race comes from and the reason for its existence [Understanding](#)

The Seeds of Life Edward Dolnick,2017-06-06 Why cracking the code of human conception took centuries of wild theories misogynist blunders and ludicrous mistakes Throughout most of human history babies were surprises People knew the basics men and women had sex and sometimes babies followed But beyond that the origins of life were a colossal mystery The Seeds of Life is the remarkable and rollicking story of how a series of blundering geniuses and brilliant amateurs struggled for two centuries to discover where exactly babies come from Taking a page from investigative thrillers acclaimed science writer Edward Dolnick looks to these early scientists as if they were detectives hot on the trail of a bedeviling and urgent mystery These strange searchers included an Italian surgeon using shark teeth to prove that female reproductive organs were not failed male genitalia and a Catholic priest who designed ingenious miniature pants to prove that frogs required semen to fertilize their eggs A witty and rousing history of science The Seeds of Life presents our greatest scientists struggling against their perceptions their religious beliefs and their deep seated prejudices to uncover how and where we come from

Law of Life Arnaud van der Veere,2021-01-14 Spiritual development is an individual perception where we all must search for personal growth and for maximizing our capacities We are not able to share our minds with anybody From the first till the last breath of life we need other people to be a part of our life We need a human connection to survive and thrive Some people retreat themselves to a state of hermitic life They escape from the world by searching for the inner self in places hidden from others Every person has had or will have times when he she wants to be alone There is a need to get your mind focused and clear and being alone can help to reach that target The time we need to alone vary from person to person
