Montaging Pushkin Alexandra Smith,2006 Montaging Pushkin offers for the first time a coherent view of Pushkin s legacy to Russian twentieth century poetry giving many new insights Pushkin is shown to be a Russian forerunner of Baudelaire Furthermore it is argued that the rise of the Russian and European novel largely changed the ways Russian poets have looked at themselves and at poetic language that novelisation of poetry is detectable in the major works of poetry that engaged in a creative dialogue with Pushkin and that polyphonic lyric has been achieved Alexandra Smith locates significant examples of Pushkin s cinematographic cognition of reality suggesting that such dynamic descriptions of Petersburg helped create a highly original animated image of the city as comic apocalypse which followers of Pushkin appropriated very successfully even as far as the late twentieth century Montaging Pushkin will be of interest to all students of Russian poetry as well as specialists in literary theory European studies and the history of ideas

*Modern Art & the Remaking of Human Disposition* Emmelyn Butterfield-Rosen,2021-11-09 How artists at the turn of the twentieth century broke with traditional ways of posing the bodies of human figures to reflect modern understandings of human consciousness With this book Emmelyn Butterfield Rosen brings a new formal and conceptual rubric to the study of turn of the century modernism transforming our understanding of the era s canonical works Butterfield Rosen analyzes a hitherto unexamined formal phenomenon in European art how artists departed from conventions for posing the human figure that had long been standard In the decades around 1900 artists working in different countries and across different media began to present human figures in strictly frontal lateral and dorsal postures The effect both archaic and modern broke with the centuries old tradition of rendering bodies in torsion with poses designed to simulate the human being s physical volume and capacity for autonomous thought and movement This formal departure destabilized prevailing visual codes for signifying the existence of the inner life of the human subject Exploring major works by Georges Seurat Gustav Klimt and the dancer and choreographer Vaslav Nijinsky replete with new archival discoveries *Modern Art and the Remaking of Human Disposition* combines intensive formal analysis with inquiries into the history of psychology and evolutionary biology In doing so it shows how modern understandings of human consciousness and the relation of mind to body were materialized in art through a new vocabulary of postures and poses
