Ronald A. Reis

The Dust Bowl:

Dust Bowl Donald Worster, 2004-09-09 In the mid 1930s North America's Great Plains faced one of the worst man made environmental disasters in world history Donald Worster's classic chronicle of the devastating years between 1929 and 1939 tells the story of the Dust Bowl in ecological as well as human terms Now twenty five years after his book helped to define the new field of environmental history Worster shares his more recent thoughts on the subject of the land and how humans interact with it In a new afterword he links the Dust Bowl to current political economic and ecological issues including the American livestock industry's exploitation of the Great Plains and the on going problem of desertification which has now become a global phenomenon He reflects on the state of the plains today and the threat of a new dustbowl He outlines some solutions that have been proposed such as the Buffalo Commons where deer antelope bison and elk would once more roam freely and suggests that we may yet witness a Great Plains where native flora and fauna flourish while applied ecologists show farmers how to raise food on land modeled after the natural prairies that once existed *The Dust Bowl* R. Douglas Hurt, 1981 To find more information about Rowman and Littlefield titles please visit www.rowmanlittlefield.com

Years of Dust Albert Marrin, 2012-10-11 In the 1930's great rolling walls of dust swept across the Great Plains The storms buried crops blinded animals and suffocated children It was a catastrophe that would change the course of American history as people struggled to survive in this hostile environment or took the roads as Dust Bowl refugees Here in riveting accessible prose and illustrated with moving historical quotations and photographs acclaimed historian Albert Marrin explains the causes behind the disaster and investigates the Dust Bowl's impact on the land and the people Both a tale of natural destruction and a tribute to those who refused to give up this is a beautiful exploration of an important time in our country's past

The Dust Bowl Ann Heinrichs, 2005 Discusses the 1930s disaster and the hardships that farmers and their families faced during that time *The Dust Bowl and the Depression in American History* Debra McArthur, 2002 Examines the conditions that led to the severe drought and terrible dust storm that destroyed crops and farmland during the 1930s [Letters from the Dust Bowl](#) Caroline Henderson, 2003 A collection of letters and articles written by Caroline Henderson between 1908 and 1966 which provide insight into her life in the Great Plains featuring both published materials and private correspondence Includes a biographical profile chapter introductions and annotations

Documents of the Dust Bowl R. Douglas Hurt, 2019-04-01 This book provides a unique thorough and indispensable resource for anyone investigating the causes and consequences of the Dust Bowl During the 1930s drought and the cultivation of submarginal lands created a severe wind erosion problem in the southern Great Plains a region that became known as the Dust Bowl During the worst dust storms the blowing soil often turned day into night Some people died when caught outside during a black blizzard others developed dust pneumonia and some residents moved to California Most people however remained Those who stayed and endured the storms had an abiding faith that federal resources and the return of normal rainfall would

end the dust storms and return life to normal free from the desperation and fear caused by the blowing soil Documents of the Dust Bowl offers a fascinating documentary history of one of the worst ecological disasters in American history It will enable high school students and academics alike to study the manner in which Dust Bowl residents confronted and endured the dust storms in the southern Great Plains during the 1930s

The Dust Bowl: the History and Legacy of the Most Notorious Drought in American History Charles River Charles River Editors,2014-09-12 Includes pictures Includes accounts of the Dust Bowl and dust storms by farmers wives and children Includes a bibliography for further reading People caught in their own yards grope for the doorstep Cars come to a standstill for no light in the world can penetrate that swirling murk The nightmare is deepest during the storms But on the occasional bright day and the usual gray day we cannot shake from it We live with the dust eat it sleep with it watch it strip us of possessions and the hope of possessions Avis D Carlson How can you frighten a man whose hunger is not only in his own cramped stomach but in the wretched bellies of his children You can't scare him he has known a fear beyond every other John Steinbeck The Grapes of Wrath It is almost impossible to imagine today but in the late 19th century and early 20th century there were places where land was cheaper than food and more plentiful than water During the homesteading period of the 1860s 1880s the government typically offered land grants of 160 acres to any farmer who could get it cultivated within a certain amount of time With that much land to make productive and a limited number of years to get it cleared and planted men would do whatever it took to get their crops in Of course these farmers trying to quickly carve working farms were more concerned with speed than with the impact on the ground itself Surviving each year itself was enough work the future would have to worry about itself While farmers were planting crops the seeds were also being sown for a natural disaster once a severe drought hit the prairie land in the 1930s Due to a lack of proper dryland farming methods wind erosion and the drought combined to create horrific dust storms that devastated wide swathes of Great Plains and even reached cities on the East Coast like New York City and Washington D C It's estimated that the dust storms affected about 100 million acres during the decade uprooting not just soil but tens of thousands of people as their farms and families suffered With farms failing across vast portions of Texas Oklahoma New Mexico Colorado and Kansas those who could no longer support themselves became migrants moving to other states like California but the country was still in the throes of the Great Depression As a result there was a unique class of suffering that was documented not only in pictures but in graphically realistic novels like John Steinbeck's The Grapes of Wrath Pictures of abandoned farms that looked like post apocalyptic ghost towns helped drive the crisis home across the country to the extent that the Dust Bowl is still well known 80 years later The Dust Bowl chronicles one of America's Dirty Thirties an era in which ecological disasters brought economic ruin and permanently affected millions across the country Along with pictures of important people places and events you will learn about the Dust Bowl like never before in no time at all

The Dust Bowl Ronald A. Reis,2008 Housewives hung wet sheets and blankets over windows and struggled to seal every crack with gummed paper strips A man

avoided shaking hands because the static electricity generated from a dust storm might knock his greeter flat Children's tears turned to mud Dead cattle when pried open were found filled with pounds of gut clogging dirt The simplest thing in life taking a breath became life threatening Conditions in America's prairie during the Dirty Thirties were no blind stroke of nature however They had their origins in human error and in the misuse of the land The Dust Bowl recounts the factors that led to these conditions how those affected coped and what can be learned from the tragedy considered by many to be America's worst prolonged environmental disaster

The Dust Bowl Marie Roesser,2020 **What Was The Dust Bowl? Environment and Society | Children's Environment Books** Baby Professor,2017-06-15 The Dust Bowl was one of the worst natural disasters in the US fueled by man's lack of ignorance on how nature works The purpose of this book is not to display such ignorance but to make sure that the Dust Bowl does not happen again Historical events are there to ensure that lessons are learned by the present and future generation Learn from this book today [The Dust Bowl](#) Christine Zuchora-Walske,2013-08-01 This book relays the factual details of the Dust Bowl through multiple accounts of the event Readers learn details from the point of view of an Oklahoma farmer a migrant farm worker and a government journalist This book offers opportunities to compare and contrast various narrative perspectives in the text while gathering and analyzing information about an historical event [Dust Bowl!](#) Richard H. Levey,2005 Describes the dust storm of the 1930's describing the safety measures and changes that occurred after the disaster [The Dust Bowl](#) John Farris,1989 Discusses the disastrous drought in the United States during the 1930s which made a dust bowl out of a part of the Great Plains causing great hardship to farmers **A Primary Source History of the Dust Bowl** Rebecca Langston-George,2015 Uses primary sources to tell the story of the Dust Bowl **The Dirty Thirties** Brinkley Howard,Historycaps,2016-05-17 In this book Brinkley will take you through a short history of the Dirty Thirties [The Dust Bowl](#) Tricia Andryszewski,1993-01-01 Examines the human and natural causes of the severe dust storms that turned much of the Great Plains into a dust bowl in the 1930s and describes the devastation caused by these storms **I Survived the Dust Bowl, 1935 (I Survived #25)** Lauren Tarshis,2025-10-07 The conditions of the Dust Bowl created over 2.5 million refugees who fled massive dust storms and barren landscapes Lauren Tarshis's story of one boy's journey to escape this disaster will leave you breathless The Dust Bowl of the 1930s was the worst environmental disaster in American history a time when black blizzards of dust some hundreds of miles wide swept across the southern plains Hundreds of people were killed Thousands of farms were buried Millions of refugees fled starvation and sickness in the plains only to face hatred and prejudice in California In her 25th I Survived book Lauren Tarshis brings this desperate time of poverty and fear to life through the thrilling story of an eleven year old boy who risks his life to save his family and friends during the worst dust storm of all an event that would become known as Black Sunday Includes a section of nonfiction back matter with more facts and photos about the real life event

The Dust Bowl Tricia Andryszewski,1993 Examines the human and natural causes of the severe dust storms that turned

much of the Great Plains into a dust bowl in the 1930s and describes the devastation caused by these storms Farming the Dust Bowl Lawrence Svobida, 1986-04-14 This is a powerful original account of one man's efforts to raise wheat on his farm in Meade County Kansas during the 1930s Lawrence Svobida tells of farmers fighting in the front line trenches putting in crop after crop year after year only to see each crop in turn destroyed by the elements Although not a writer by trade Svobida undertook to record what he saw and experienced to help the reader to understand what is taking place in the Great Plains region and how serious it is He wrote of the need for better farming methods the only way he felt the destruction could be halted or confined Well before the principles of an ecological movement were widely embraced Svobida urged a public acceptance of the sovereign rights of the states and the nation to regulate the use of land by owners so that it may be conserved as a national resource This graphic account of farm life in the Dust Bowl perhaps the only autobiographical record of Dust Bowl agriculture in existence was first published in 1941 This new edition contains an introduction by the historian R Douglas Hurt that not only objectively sets the scene during and after the Dust bowl but also places the book properly in the growing body of contemporary literature on agriculture and land use The volume is an important contribution to American agricultural history in general and the the history of the Depression and of the Great Plains in particular
