

Modelling Belief Dynamics

For a computer scientist the ultimate solution to the problem about belief revision is to develop algorithms for computing appropriate revision and contraction functions for an arbitrary belief system.

(Peter Gärdenfors)

The following considerations concern modelling Belief Dynamics (BD) not just in the sense of a formalization, but rather in the sense of building a *computational* model and implementing the corresponding data structures and algorithms of recomputing beliefs. The purpose of such a project is to illustrate some ideas about belief changes in a Web of Beliefs (WoB) to explore and deepen one's understanding of belief changes by trying to implement or improve corresponding algorithms. With implementation one will proceed from more basic models, which make a lot of simplifications, to more extended models, which look more at internal belief structure and employ more refined algorithms.

In the middle of the 1980s logical tools were discovered that make it possible to model changes in belief and knowledge in entirely new ways These logical tools turned out to be applicable both to human beliefs and to the contents of databases This is the first textbook in this new area It contains both discursive chapters with a minimum of formalism and formal chapters in which proofs and proof methods are presented By using different selections from the formal section as suggested in detail by the author the book can be used on all levels of University education *Induction and the Dynamics of Belief* Matthias Hild,1997 **The Dynamics of Degrees of Belief** Amos Nathan,2007 **Breaking Free from the Tyranny of Beliefs** Lark Aleta Batey,2012-03-30 At the foundational level of westernized cultures is a Core Belief Matrix This matrix consists of seven imbedded beliefs that bind us to a three dimensional world of limitations Author Lark Batey takes the reader on a fascinating and liberating journey of systematic investigation and self exploration that reveals the ruse of the matrix and guides the reader to the discovery of the Sovereign Self As a consciousness explorer the reader will travel through historical events that defined the matrix experience the story of our origins through the mythology of The Grand Experiment and learn more about archetypal influence by traversing the mountains and valleys of our inner landscape through The Fools Journey and other universal paths of awakening Traveling deeper into ones psyche the explorer discovers how the play of duality psychological overlays and shame deepen the oppression of the Matrixs hold upon us The next destination on the journey takes the explorer to the Field of All Possibilities where glimpses of the Sovereign Self appear Finally the matrix can be dismantled and the explorer can Break Free from the Tyranny of Beliefsto dream new dreams that will create new worlds
