This booklet is a compilation of all the assignments and answers provided through thorough research using a wide range of resources. It is anticipated that the compendium will be a valuable document to consult for anyone aspiring to be an excellent manager or leader in their organisation.

Stress Management for Busy People Aino Felicity Virtanen, In today s hyperconnected world stress has become as common as morning coffee and evening news We wake up to buzzing phones filled with notifications rush through packed schedules and fall asleep to the blue glow of screens displaying tomorrow s endless to do lists The modern lifestyle while offering unprecedented convenience and opportunity has also created a perfect storm for chronic stress that affects millions of people worldwide Stress fundamentally is our body s natural response to perceived threats or challenges When our ancestors faced a charging mammoth their stress

response system kicked into gear flooding their bodies with adrenaline and cortisol to either fight the beast or flee to safety. This fight or flight response served them well in life or death situations that lasted minutes not months. Today's stressors are vastly different. We don't face mammoths but we do face mounting deadlines, financial pressures, relationship conflicts, and the constant barrage of information that demands our attention. The problem is that our bodies haven't evolved to distinguish between a charging mammoth and a demanding boss. Our stress response system treats them with equal urgency, keeping us in a state of chronic alertness that wreaks havoc on our physical and mental well-being.
