

The image features a dense grid of small, rounded square thumbnails, each depicting a different scene from a Roblox game. The thumbnails are arranged in a staggered pattern against a solid black background. The scenes are diverse, including a city street with cars, a colorful abstract landscape, a beach with a palm tree, a character in a blue dress, a character in a red shirt, and various other virtual environments. In the center of the image, the word "ROBLOX" is written in a large, bold, white, sans-serif font, with the letters slightly overlapping the grid of thumbnails.

Defending Assessment Security in a Digital World Phillip Dawson, 2020-10-26 *Defending Assessment Security in a Digital World* explores the phenomenon of cheating and identifies ways to bolster assessment to ensure that it is secured against threats posed by technology. Taking a multi-disciplinary approach, the book develops the concept of assessment security through research from cybersecurity, game studies, artificial intelligence and surveillance studies. Throughout, there is a rigorous examination of the ways people cheat in different contexts and the effectiveness of different approaches at stopping cheating. This evidence informs the development of standards and metrics for assessment security and ways that assessment design can help address cheating. Its new concept of assessment security both complements and challenges traditional notions of academic integrity. By focusing on proactive, principles-based approaches, the book equips educators, technologists and policymakers to address both current cheating as well as future threats.
