**Information Bulletin** International Astronomical Union, 1959 *Proceedings of the Eighteenth General Assembly*  
Richard M. West, 2012-12-06 The XVIIIth General Assembly of the International Astronomical Union was held in Patras Greece from 17-26 August 1982. It was marked by the tragic death of the President of the IAU Professor M. K. V. Bappu on August 19, 1982. This sad event without precedent in the history of the Union posed serious problems to the organization of the General Assembly which could only be overcome by the full collaboration of all members, the organizers and the Executive Committee. A tribute to the memory of Prof. Bappu was paid during a plenary meeting on 23 August 1982. The full texts of the speeches are published in Chapter I of this volume. The excellent scientific programme in Patras was organized by the Presidents of the 40 IAU Commissions and coordinated by the IAU General Secretary 1979-1982 Professor P. A. Wayman. The local arrangements were taken care of by Professor C. Goudas and his collaborators from the Patras University. Due to the unexpected withdrawal in 1979 of another invitation to host the 1982 IAU General Assembly, the organizers in Greece had less than two years available for the extensive preparations and our hearty thanks are due to them for their persistent efforts which made this General Assembly an outstanding success.

At the time of its establishment in 1966 by the International Council of Scientific Unions (ICSU), the Committee on Data for Science and Technology (CODATA) was given the basic mission of promoting and encouraging on a worldwide basis the production and distribution of compendia and of collections of critically selected numerical data on substances of other forms of interest and importance to science and technology. To accomplish this aim, the following tasks were assigned to CODATA:

1. To ascertain on a worldwide basis what work on compilation of numerical data is being carried on in each country and under each union and from this information to prepare and distribute a Directory or Compendium of the Data Compiling Projects and Related Publications of the World.
2. To achieve coordination of existing programs and to recommend new programs.
3. To encourage from all appropriate sources financial support for work on compilation.
4. To encourage the use of internationally approved symbols, units, constants, terminology, and nomenclature.
5. To encourage and coordinate research on new methods for preparing and disseminating data for science and technology.

In its first two years of operation (1966 to 1968) in Washington, D. One of the significant advantages of Triple Commission books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes.
