Tropical Pathology:

Tropical Pathology W. Doerr, T.G. Ashworth, G. Seifert, 1995-09-15 The continuous and rapid improvement of tourism around the whole world and the increasing emigration of peoples from the developing countries to the old continents have changed the classical image of tropical diseases which are now seen more frequently in temperate and highly developed countries Consequently over 10 years after its first publication this second edition of the pathology of tropical diseases has been restructured and expanded to reflect the recent developments and changes in diagnostic techniques A total of 27 chapters written by 29 reputed experts from 11 countries cover such new aspects as technological developments in diagnosing infectious diseases autopsies in the tropics renal diseases geomedicine and genetic disorders A concentrated and up to date review of the field

Tropical Pathology H. Spencer, 2013-11-11 General pathology works nomothetically whereas specific pathology works idiographically Modern pathological anatomy on the other hand seeks to rise above the level of merely gathering data and to proceed to a practical knowledge of defined pathological aspects and patterns JEAN MARTIN CHARCOT's conception of the entire morbid as the abstract basis of nosologically independent phenomena is paradigmatically corroborated in an especially impressive way by the study of tropical diseases And so the idea suggested itself that we should present the main pathological patterns from the field of tropical pathology with particular reference to their interconnection We soon came to the firm conclusion that such a compilation could be successfully undertaken only by a pathologist from the English speaking world The classic practical knowledge of our British colleagues which has matured in world wide experience would be bound to find its ideal verification here And so we turned for help to our friend Prof WALTER PAGEL Dr med Dr h c Basle Dr h c Heidelberg in London He immediately referred us to Prof HERBERT SPENCER That we managed to enlist the help of Professor SPENCER is entirely due to Professor PAGEL's kind offices We owe the fact that the undertaking has been completed in relatively so short a time to Professor SPENCER's exceptional knowledge both of his subject and of the field workers themselves
