Social Work with the Aged and Their Families Roberta R. Greene, Colleen Galambos, Harriet L. Cohen, Nancy Greene, 2016-11-30 Social Work with the Aged and Their Families presents the functional age model FAM of intergenerational treatment an integrative theoretical framework for social workers practicing with older adults and their families In keeping with the Council on Social Work Education s curriculum mandate of 2015 social workers are now encouraged to use human behavior theories in working with

their geriatric clients This fourth edition incorporates much needed additional techniques to address the mental health assessments of the elderly FAM addresses the assessment of older adults biological psychological socio cultural and spiritual age It also incorporates an evaluation of the family system family roles and family development in this assessment Interventions at the individual family group and community levels are discussed This volume augmented with recent concepts related to successful aging spirituality and resiliency presents the major converging conceptual trends that constitute a model for twenty first century social work practice in the field of aging It is an indispensable text for those training in social work practice with the elderly or those currently in practice

Social Work With Older People: Approaches To Person-Centred Practice Hall, Barbara, Scragg, Terry, 2012-03-01 This text fills a gap for an accessible textbook which takes a person centred approach to working with older people by providing readers with a basic knowledge of policy legislation theory and research

Human Behavior Theory and Social Work Practice Roberta R. Greene, 2011-12-31 Human Behavior Theory and Social Work Practice remains a foundation work for those interested in the practice and teaching of social work Roberta Greene covers theoretical areas and individual theorists including classical psychoanalytic thought Eriksonian theory Carl Rogers cognitive theory systems theory ecological perspectives social construction feminism and genetics She discusses the historical context its philosophical roots and major assumptions of each theory The general theme which distinguishes this volume is that the person in environment perspective has been a central influence in the formation of the profession s knowledge base as well as its approach to practice Greene provides perspective on how individuals and social systems interact This book examines how social workers can use theory to shape social work practice by increasing his or her understanding of and potential for enhancing human well being Greene covers the relationship between human behavior theory and professional social work practice She also explores the challenges and limitations of each theory and addresses the following issues how the theory serves as a framework for social work practice how the theory lends itself to an understanding of individual family group community or organizational behavior what the implications are of the theory for social work interventions or practice strategies and what role it proposes for the social worker as a change agent Throughout the profession s history social workers have turned to a number of theoretical approaches for the organizing concepts needed to define their practice base The aims of social work to improve societal conditions and to enhance social functioning of and between individuals families and groups are put into action across all fields of practice and realized through a variety of methods in a range of settings This third edition completely revised represents a fundamental contribution to the field and like its predecessors will be widely used as a basic text

Gerontological Social Work in Small Towns and Rural Communities Lenard W Kaye, Sandra Butler, 2012-10-12 Learn the skills you need to work with geriatric populations in rural areas Gerontological Social Work in Rural Towns and Communities provides a range of intervention and community skills aimed precisely at the needs of rural elders This book fills a gap in the

literature by focusing on the specific practice concerns for social workers assisting older adults in rural areas including the aging experience social worker skills professional functions working with special populations and health and long term care concerns This valuable resource will benefit social workers gerontologists allied health professionals in rural areas health and human services administrators and managers *Gerontological Social Work in Rural Towns and Communities* explores the challenges social workers need to overcome when working with the elder community in rural areas This book s significance to social workers will only increase as more adults choose to live and grow old away from the cities Experts in the field suggest strategies to overcome barriers in planning and providing services such as a longer distance for the elderly to travel to use social service centers a narrower range of available services in the local area increased poverty levels for the elderly a stronger dependency by elderly on family rather than public assistance This book is divided into five sections *Rurality and Aging* introduces the concept of rurality and examines the demographics of aging from a rural perspective *Practice Dimensions of Social Work with Rural Elders* includes clinical practice models intervention and advocacy techniques program planning and marketing approaches *Special Populations* gives attention to four special population groups indigenous elders African American older adults elderly Latinos and disabled elders *Special Issues Pertaining to Rural Elders* covers five essential issues for rural gerontological social workers health promotion older workers and retirement preparation aging in place specialized housing and ethical practice *Training and Policy Recommendations* future training and education recommendations for social workers are explored as well as service capacity building the aging network and the future of long term care While a variety of theoretical perspectives are explored in *Gerontological Social Work in Rural Towns and Communities* the book s empowerment orientation and strengths based approach will enhance your abilities to improve quality of life for elderly individuals in rural communities Each chapter contains a comprehensive review of the literature on the subject it addresses and several chapters include tables and graphs to further establish their revealing empirical findings An appendix provides additional sources to turn to for more information *Gerontological Social Work* Robert Lawrence Schneider, Nancy P. Kropf, 1992 [Handbook of Social Work in Health and Aging](#) Barbara Berkman, 2006-02-09 The *Handbook of Social Work in Health and Aging* is the first reference to combine the fields of health care aging and social work in a single authoritative volume These areas are too often treated as discrete entities while the reality is that all social workers deal with issues in health and aging on a daily basis regardless of practice specialization As the baby boomers age the impact on practice in health and aging will be dramatic and social workers need more specialized knowledge about aging health care and the resources available to best serve older adults and their families The volume s 102 original chapters and 13 overviews written by the most experienced and prominent gerontological health care scholars in the United States and across the world provide social work practitioners and educators with up to date knowledge of evidence based practice guidelines for effectively assessing and treating older adults and their families new models for intervention in both

community based practice and institutional care and knowledge of significant policy and research issues in health and aging. A truly monumental resource, this handbook represents the best research on health and aging available to social workers today. **The Oxford Handbook of Social Work in Health and Aging** Daniel B. Kaplan, Barbara Berkman, 2016. This Second Edition of the Handbook addresses the evolving interdisciplinary health care context and the broader social work practice environment as well as advances in the knowledge base which guides social work service delivery in health and aging. This includes recent enhancements in the theories of gerontology, innovations in clinical interventions and major developments in the social policies that structure and finance health care and senior services. In addition, the policy reforms of the 2010 Patient Protection and Affordable Care Act set in motion a host of changes in the United States healthcare system with potentially profound implications for the programs and services which provide care to older adults and their families. In this volume, the most experienced and prominent gerontological health care scholars address a variety of populations that social workers serve and the arenas in which they practice, followed by detailed recommendations of best practices for an array of physical and mental health conditions. The volume's unprecedented attention to diversity, health care trends and implications for practice, research, policy, make the publication a major event in the field of gerontological social work. This is a Must Read for all social work, social work educators, practitioners and students interested in older adults and their families.
