Workpapers Concerning Waorani Discourse Features, 1988 **Workpapers Concerning Waorani Discourse Features** Evelyn G. Pike, 1988 Discusses discourse features peak grammatical structures clause and features of the referential structure participant reference *Typological Studies in Negation* Peter Kahrel, René van den Berg, 1994 This collection of articles offers descriptions of the negation system in 16 languages As not much is known about negation systems in non European languages the first aim of the volume is to provide data on various aspects on negation for all articles these data were collected on the basis of the same questionnaire Most work on this subject deals with syntactic aspects of negation this volume attempts to include pragmatic and semantic issues as well such as the expression of negative indefinites interaction of negation and quantifiers the scope of negation and the choice of a particular form of negation in cases where there are several ways to express this For a number of less known languages descriptions offering a wealth of data are presented here and in the articles about well studied languages new data and analyses of more complicated issues are provided *Discourse Features of Ten Languages of West-Central Africa* Stephen H. Levinsohn, 1994 **Switch Reference 2.0** Rik van Gijn, Jeremy Hammond, 2016-10-25 Switch reference is a grammatical process that marks a referential relationship between arguments of two or more verbs Typically it has been characterized as an inflection pattern on the verb itself encoding identity or non identity between subject arguments separately from traditional person or number marking In the 50 years since William Jacobsen s coinage of the term switch reference has evolved from an exotic phenomenon found in a handful of lesser known languages to a widespread feature found in geographically and linguistically unconnected parts of the world The growing body of information on the topic raises new theoretical and empirical questions about the development functions and nature of switch reference as well as the internal variation between different switch reference systems The contributions to this volume discuss these and other questions for a wide variety of languages from all over the world and endeavour to demonstrate the full functional and morphosyntactic range of the phenomenon **The Languages of the Andes** Willem F. H. Adelaar, 2004-06-10 The Andean and Pacific regions of South America are home to a remarkable variety of languages and language families with a range of typological differences This linguistic diversity results from a complex historical background comprising periods of greater communication between different peoples and languages and periods of fragmentation and individual development The Languages of the Andes documents in a single volume the indigenous languages spoken and formerly spoken in this linguistically rich region as well as in adjacent areas Grouping the languages into different cultural spheres it describes their characteristics in terms of language typology language contact and the social perspectives of present day languages The authors provide both historical and contemporary information and illustrate the languages with detailed grammatical sketches Written in a clear and accessible style this book will be a valuable source for students and scholars of linguistics and anthropology alike *Between Worlds* Frances E.

Karttunen,1994 *Spanning the globe and the centuries* Frances Karttunen tells the stories of sixteen men and women who served as interpreters and guides to conquerors missionaries explorers soldiers and anthropologists These interpreters acted as uncomfortable bridges between two worlds their own marginality the fact that they belonged to neither world suggests the complexity and tension between cultures meeting for the first time Some of the guides were literally dragged into their roles others volunteered The most famous ones were especially skilled at living in two worlds and surviving to recount their experiences Among outsiders the interpreters found protection sustenance recognition intellectual companionship and employment yet most of the interpreters ultimately suffered tragic fates *Between Worlds* addresses the broadest issues of cross cultural encounters imperialism and capitalism and gives them a human face *MLA International Bibliography of Books and Articles on the Modern Languages and Literatures* ,1990 Publications of the Summer Institute of Linguistics Summer Institute of Linguistics (Dallas, Tex.),1993 **Language Isolates II: Kanoé to Yurakaré** Patience Epps,Lev Michael,2023-01-30 The goal of this handbook is to provide a comprehensive resource on the Amazonian languages that synthesizes a diverse body of work by a highly international group of linguists It will provide a review of the current state of the art thus laying the groundwork for future scholarship in this important area Volume 2 will focus on theory neutral grammatical descriptions of smaller Amazonian language families **Typology of Periphrastic 'do'-constructions** Andreas Jäger (Ph.D.),2006 *Mitla Zapotec Texts* Morris Stubblefield,1994 Gives a grammatical sketch of Zapotec Mitla Vallay Oaxaca Mexico This third volume in the series *Folklore Texts in Mexican Indian Languages* consists of eight stories narrated by native speakers transcribed phonemically with glossing in English and free translations in English and Spanish **IPRA Bulletin** ,1989 *Ozumacín Chinantec Texts* James E.
