Art and Revolution in Latin America, 1910-1990 David Craven, 2006-01-01 In this uniquely wide ranging book David Craven investigates the extraordinary impact of three Latin American revolutions on the visual arts and on cultural policy The three great upheavals in Mexico 1910 40 in Cuba 1959 89 and in Nicaragua 1979 90 were defining moments in twentieth century life in the Americas Craven discusses the structural logic of each movement s artistic project by whom how and for whom artworks were produced and assesses their legacies In each case he demonstrates how the consequences of the revolution reverberated in the arts and cultures far beyond national borders The book not only examines specific artworks originating from each revolution s attempt to deal with the challenge of socializing the arts but also the engagement of the working classes in Mexico Cuba and Nicaragua with a tradition of the fine arts made newly accessible through social transformation Craven considers how each revolution dealt with the pressing problem of creating a dialogical art one that reconfigures the existing artistic resource rather than one that just reproduces a populist art to keep things as they were In addition the author charts the impact on the revolutionary processes of theories of art and education articulated by such thinkers as John Dewey and Paulo Freire The book provides a fascinating new view of the Latin American revolutionaries from artists to political leaders who defined art as a fundamental force for the transformation of society and who bequeathed new ways of thinking about the relations among art ideology and class within a revolutionary process

Encyclopedia of Peace Javier Pérez de Cuéllar, 1999 **Art Market Research** Tom McNulty, 2013-12-19 This book is for art market researchers at all levels A brief overview of the global art market and its major stakeholders precedes an analysis of the various sales venues auction commercial gallery etc Library research skills are reviewed and advanced methods are explored in a chapter devoted to basic market research Because the monetary value of artwork cannot be established without reference to the aesthetic qualities and art historical significance of our subject works two substantial chapters detail the processes involved in researching and documenting the fine and decorative arts respectively and provide annotated bibliographies Methods for assigning values for art objects are explored and sources of price data both in print and online are identified and described in detail In recent years art historical scholarship increasingly has addressed issues related to the history of art and its markets a chapter on resources for the historian of the art market offers a wide range of sources Finally provenance and art law are discussed with particular reference to their relevance to dealers collectors artists and other art market stakeholders [The World Encyclopedia of Cartoons](#) ,1983 **The Fantastical World of Croatian Naïve Art** Vladimir Crnković, Božo Biškupić, 2000 The Fantastical World of Croatian Na ve Art is part of the Museum s mission of presenting the very best examples of world art to our visitors and celebrates the beginning of a new millennium This exhibition is an ideal way to look back at the end of a century which saw the collapse of the Soviet Union the fall of the Berlin Wall and the breakup of communist Europe Two events in particular inspired this exhibition The first was Croatia s declaration of independence in 1991 which allowed me to return to my country and to meet with museum professionals government officials and the na ve artists themselves The second was the beginning of a new millennium and the opportunity to bring the two countries I love closer together and to present this extraordinary tradition to a larger audience Croatian na ve art was a perfect choice as these paintings vividly explore cultural memories While these paintings were created by artists often removed from the larger art world it is perhaps surprising that so many of them are anything but insular While rooted in Croatian rural life many are clearly fascinated by and want to be connected to Europe and America The Croatian na ve artists have played a critical role in how Croatia as a nation has been and continues to be imagined for those living in and outside the country These paintings can also be admired independently of cultural issues Croatian na ve art has repeatedly been recognized by curators and scholars as some of the most imaginative and technically accomplished na ve or folk art in the world Much of it counters the designation na ve as it is quite sophisticated That label simply means that these paintings have been created by largely self taught artists and that they often take as their point of inspiration life in the fields and villages Michael Milkovich Director pages 8 10 [World Encyclopedia of Naive Art](#) Oto Bihalji-Merin, Nebojsa-Bato Tomasevic, 19??
