understanding security primarily a matter spatial exercise in distancing and boundary making on the part of states and their  
military alliances to secure borders and institutions from outside threats the nations of the world have so far given a short  
shrift to the gravity of environmental degradation as a factor or catalyst of intrastate or interstate conflict or at worst a  
security threat to entire humanity until the shafts of retaliatory responses of the infuriated climate change to the cloddish  
and brutish power of the rich industrialized nations to destroy it by its emission of carbon dioxide and other greenhouse  
gases pointed toward man menacing with funereal and cascading consequences of global warming Thus climate change  
which has so far been on the fringe of human concern or in American President s view a myth or a hoax has catapulted into  
the center stage of great political flare up among the nations of the world on the issue of apportioning the responsibility on  
rich industrialized nations or the populous South to mitigate the dangers of climate change which seems to be mired in the  
contradiction between North s advocacy of inequity in having uncontested access to the atmosphere as carton sinks and  
equity while disabusing the atmosphere of the carbon debris Not walking on trodden furrows this book expatiates on the
