American religious traditions as well as West African African Brazilian Hindu Polynesian and circum Polar traditions to describe the theology of polytheism The book provides a topology of polytheistic deities focusing on the cosmic couple Father Sky and Mother Earth animal plant and mineral deities ancestral spirits divine ghosts and culture heroes and tricksters Paper also shows how monotheists misunderstand polytheism and provides a polytheist perspective on what it means to be human when the deities are many This is a fascinating illuminating book especially for those raised in monotheistic societies
