D. PIMENTEL, 1978 *World Food, Pest Losses, and the Environment*, 1978 **Pest Management and Food Production** Montague Yudelman, Annu Ratta, David F. Nygaard, 1998-01-01 In their comprehensive paper Montague Yudelman Annu Ratta and Davi Nygaard examine the key issues with regard to pest management and food production over the coming decades They draw attention to the lack of adequate information on the magnitude and impact of pest losses without such information policymakers are handicapped when devising strategies for meeting food needs The authors address both chemical and nonchemical approaches to pest management highlighting the importance of biotechnology There is growing public sentiment against biotechnology but little appreciation as yet of its contributions to alleviating hunger by among other things

controlling pest losses The authors also address the important subject of the roles of different actors in pest management most notably the private sector

Pest Control: Cultural And Environmental Aspects David Pimentel, John H. Perkins, 2019-07-15 The field of pest control research of increasing importance in a world short of food has been plagued for many years by a variety of problems among them 1 the instability including pesticide resistance of many control techniques 2 the continuing need for improved pest management methods to increase world food supplies and 3 the environmental and social hazards of currently used pesticides What historical or other factors affect the ability of science to generate useful new technologies to alleviate these three major problems Are there barriers to cooperation among the different pest control specialists This book attempts to answer these questions examining past events and projecting likely impacts on contemporary pest management systems The authors sociologists economists lawyers ecologists political scientists and pest control scientists examine the social economic political and ethical factors that are important in shaping pest management systems as well as developmental patterns that show the importance of these factors in shaping today's systems

Integrated Pest Management David Pimentel, Rajinder Peshin, 2014-04-10 The book deals with the present state and problems of integrated pest management as relating to stakeholder acceptance of IPM and how integrated pest management can become a sustainable practice The discussions include using less pesticides and the possibility of eliminating pesticides from agricultural practice
