Foreign Investment in India Niti Bhasin, 2008 ABOUT THE BOOK Foreign investment plays an important role in the long term economic development of a country by augmenting availability of capital enhancing competitiveness of the domestic economy through transfer of technology strengthening infrastructure raising productivity generating new employment opportunities and boosting exports Foreign investment therefore is a strategic instrument of development policy In the wake of economic liberalisation policy initiated in 1991 the Government of India has taken several measures to encourage foreign investment both direct and portfolio in almost all sectors of the economy However the emphasis has been on foreign direct investment FDI inflows in the development of infrastructure technological upgradation of industry and setting up Special Economic Zones SEZs India has consistently been classified as one of the most attractive investment destinations by reputed international rating organisations With a vast reservoir of skilled and cost effective manpower India offers immense opportunities for business process outsourcing BPO knowledge process outsourcing KPO and engineering process outsourcing EPO In spite of the fact that India is strategically located with access to a vast domestic and South Asian market its share in world's total flow of direct portfolio investment to developing countries is dismally low China with GDP size 2.2 times of India is able to attract 20 times the FDI inflow to India Similarly Singapore Indonesia Philippines and Thailand also attract greater amounts of foreign investment than India The current world scenario calls for further

liberalisation of norms for foreign investment in India The present book deals with almost all aspects of foreign investment in India It particularly focuses on current policies and procedures for foreign direct investment as well as foreign portfolio investment Foreign investment policies of other countries have also been highlighted to make suitable comparisons with India s policies in order to underscore the measures that are needed to attract higher levels of foreign capital and technology
