Austin,2019-12-10 The fullest account to date of African American young people in a segregated city Coming of Age in Jim Crow DC offers a complex narrative of the everyday lives of black young people in a racially spatially economically and politically restricted Washington DC during the 1930s In contrast to the ways in which young people have been portrayed by researchers policy makers law enforcement and the media Paula C Austin draws on previously unstudied archival material to present black poor and working class young people as thinkers theorists critics and commentators as they reckon with the boundaries imposed on them in a Jim Crow city that was also the American emblem of equality The narratives at the center of this book provide a different understanding of black urban life in the early twentieth century showing that ordinary people were expert at navigating around the limitations imposed by the District of Columbia s racially segregated politics Coming of Age in Jim Crow DC is a fresh take on the New Negro movement and a vital contribution to the history of race in America

[Contemporary Architecture in Washington, D.C.](#) Claudia D. Kousoulas,1995 Washington D C lives in our minds as museums and monuments capitals and columns but beyond the timeless monuments of white stone history thrives a city that has moved into the modern and postmodern age In text and photos this guide goes beyond the grand avenues to explore

remarkable works of contemporary architecture that reinterpret historical styles and reconcile with Washington's monumental plan. Contemporary Architecture in Washington D C features more than 20 detailed maps and includes photographs of almost 300 buildings from the waterfront in Georgetown to the town houses of Capitol Hill from the luxurious residences of Bethesda to the towering office buildings of Crystal City. As a national capital, Washington is a showplace for the best and the latest works by internationally recognized modern masters and talented local firms as well. Beyond buildings, Contemporary Architecture in Washington D C explores new communities and developments in the Washington suburbs and in essays examines the particular forces of style, politics, economics, and history that have come together to form the American capital. Washington is a city of metaphor. From its very streets, the city speaks of democracy and nationhood. The impact of these metaphors comes from a repeated architectural language that is constantly being rewritten to reflect history and our interpretation of it. back cover

Buildings of the District of Columbia Pamela Scott, Antoinette Josephine Lee, 1993. Tracing the various changes in Washington's architectural character from the Revolutionary War to the post World War II era, the authors survey the major public and government buildings, monuments and memorials, residential buildings and neighborhoods, parks and recreational areas, and commercial and industrial centers. Over 360 photos, drawings, and maps.

Rooted in Dust Pamela Riney-Kehrberg, 1994. Examines the social impact of drought and depression in Kansas, illustrating how both farm and town families dealt with the deprivation by finding odd jobs, working in government programmes, or depending on federal and private assistance.

Nature's Crossroads George Vrtis, Christopher W. Wells, 2023-01-10. Minnesota's Twin Cities have long been powerful engines of change. From their origins in the early nineteenth century, the Twin Cities helped drive the dispossession of the region's Native American peoples, turned their riverfronts into bustling industrial and commercial centers, spread streets and homes outward to the horizon, and reached well beyond their urban confines, setting in motion the environmental transformation of distant hinterlands. As these processes unfolded, residents inscribed their culture into the landscape, complete with all its tensions, disagreements, contradictions, prejudices, and social inequalities. These stories lie at the heart of *Nature's Crossroads*. The book features an interdisciplinary team of distinguished scholars who aim to open new conversations about the environmental history of the Twin Cities and Greater Minnesota.
