Handbook of Children's Rights Martin D. Ruck, Michele Peterson-Badali, Michael Freeman, 2016-12-08 While the notion of young people as individuals worthy or capable of having rights is of relatively recent origin over the past several decades there has been a substantial increase in both social and political commitment to children's rights as well as a tendency to grant young people some of the rights that were typically accorded only to adults. In addition there has been a noticeable shift in orientation from a focus on children's protection and provision to an emphasis on children's participation and self-determination. With contributions from a wide range of international scholars the *Handbook of Children's Rights* brings together research, theory and practice from diverse perspectives on children's rights. This volume constitutes a comprehensive treatment of critical perspectives concerning children's rights in their various forms. Its contributions address some of the major scholarly tensions and policy debates comprising the current discourse on children's rights including the best interests of the child, evolving capacities of the child, states' rights versus children's rights, rights of children versus parental or family rights, children as citizens, children's rights versus children's responsibilities and balancing protection and participation. In addition to its multidisciplinary focus the handbook includes perspectives from social science domains in which children's rights scholarship has evolved largely independently due to distinct and seemingly competing assumptions and disciplinary approaches e.g. childhood studies, developmental psychology, sociology of childhood, anthropology and political science. The handbook also brings together diverse methodological approaches to the study of children's rights including both quantitative and qualitative perspectives and policy analysis. This comprehensive, cosmopolitan and timely volume serves as an important reference for both scholarly and policy-driven interest in the voices and perspectives of children and youth.

Young Writers at Transition Daniel C. Tabor, 2004 Daniel Tabor discusses the teaching and uses of writing as pupils move from Year 6 at primary school to Year 7 at the secondary school. He covers issues of literacy practice, how writing is taught and used in transition and continuity.

Developing Self-Confidence in Young Writers Steve Bowkett, 2017-09-21 How many times as a teacher have you heard the cry 'But I don't know what to write.' This, all too familiar, fear of the blank page can be overcome by using the wealth of practical suggestions for helping children to feel more confident as they strive to master the complex combination of skills that make up the craft of writing. Steve Bowkett, an experienced author and writer, suggests a two-pronged attack, giving children a toolkit of techniques for generating and organising ideas of their own, coupled with methods for perceiving themselves as writers, all designed to boost self-esteem and self-confidence. This book will help to motivate children, Primary and Lower Secondary, towards becoming more creative, confident and effective writers, an attitude that will lead to beneficial effects in many other areas of learning too.
