Writing In A Nuclear Age:

Writing in a Nuclear Age Jim Schley,1983 **The Relationship Between the Writer and the Literature of the Nuclear Age** Ba-Jin,1984* **Thomas Schelling and the Nuclear Age** Robert Ayson,2020-09-23 An illuminating insight into the work of Thomas Schelling one of the most influential strategic thinkers of the nuclear age By the time of the Cuban Missile Crisis and the United States early forays into Vietnam he had become one of the most distinctive voices in Western strategy This book shows how Schelling s thinking is much more than a reaction to the tensions of the Cold War In a demonstration that ideas can be just as significant as superpower politics Robert Ayson traces the way this Harvard University professor built a unique intellectual framework using a mix of social scientific reasoning from economics to social theory and psychology As such this volume offers a rare glimpse into the intellectual history which underpins classical thinking on nuclear strategy and arms control thinking which still has an enormous influence in the early twenty first century

Writers in the Nuclear Age ,1983 **Makers of Modern Strategy from Machiavelli to the Nuclear Age** Peter Paret,Gordon A. Craig,Felix Gilbert,2010-10-01 Authoritative and convincing New York Times Book Review The classic reference on the theory and practice of war The essays in this volume analyze war its strategic characteristics and its political and social functions over the past five centuries The diversity of its themes and the broad perspectives applied to them make the book a work of general history as much as a history of the theory and practice of war from the Renaissance to the present **Makers of Modern Strategy from Machiavelli to the Nuclear Age** takes the first part of its title from an earlier collection of essays that became a classic of historical scholarship Three essays are repinted from the earlier book while four others have been extensively revised The rest twenty two essays are new The subjects addressed range from major theorists and political and military leaders to impersonal forces Machiavelli Clausewitz and Marx and Engels are discussed as are Napoleon Churchill and Mao Other essays trace the interaction of theory and experience over generations the evolution of American strategy for instance or the emergence of revolutionary war in the modern world Still others analyze the strategy of particular conflicts the First and Second World Wars or the relationship between technology policy and war in the nuclear age Whatever its theme each essay places the specifics of military thought and action in their political social and economic environment Together the contributors have produced a book that reinterprets and illuminates war one of the most powerful forces in history and one that cannot be controlled in the future without an understanding of its past **The Global Third Nuclear Age** Andrew Futter,Ludovica Castelli,Cameron Hunter,Olamide Samuel,Francesca Silvestri,Benjamin Zala,2025-01-17 This book provides an in depth examination of the technological geopolitical and normative pressures driving the world into a new more complex and potentially more dangerous Third Nuclear Age By adopting an innovative framework for analysis the book challenges the constrained focus of much of the existing literature by explaining that the pathways to nuclear security for different actors across the globe will vary considerably in this new context It argues that the

Third Nuclear Age will be defined by friction and conflict between Nuclear Traditionalists Technological Transformers Hedgers and Balancers and Activists and Protestors as different interests and visions of the nuclear future clash The book draws on dozens of interviews and non English language sources to provide a global approach and looks at the security politics driving the political debate in 20 different countries across the globe This book will be of much interest to students of nuclear politics security studies and International Relations The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license
