Becoming a solo librarian may be a daunting prospect. From collections to cataloguing, classifying to copyright, whether the individual is a solo librarian within a small team with limited help or working in a larger library or information hub, the range of tasks involved will remain the same. Whilst being a solo librarian does have its fair share of challenges that can include juggling multiple tasks and time management, marketing and embracing the ever-changing technologies and upcoming social media channels, and effectively managing the feeling of being isolated, there are also many advantages. With the author having been through the education process and gained work experience, information professionals will have already picked up many transferrable skills and identified some key aspects when it comes to accessing, using, and running a library. By being intellectually curious, embracing ever-changing technologies, enjoying learning and knowledge creation, and working alongside non-library colleagues, it is likely that information professionals are organized, can manage their time effectively, enjoy helping others by sharing and promoting library and information services, and will stay engaged as a team of one.
