

# The Leadership Framework

## Self assessment tool

Leadership in the health and care services is about delivering high quality services to patients by:

- demonstrating personal qualities
- working with others
- managing services
- improving services
- setting direction
- creating the vision, and
- delivering the strategy

Staff will exhibit a range of leadership behaviours across these seven domains dependent on the context in which they operate. It is essential that all staff are competent in each of the five core leadership domains: **demonstrating personal qualities, working with others, managing services, improving services and setting direction**. The other two domains, **creating the vision and delivering the strategy**, focus more on the role and contribution of individual leaders.

To help users understand and apply the Leadership Framework each domain is divided into four elements and each of these elements is further divided into four descriptive statements which describe the behaviours all staff should be able to demonstrate.

The Clinical Leadership Competency Framework (CLCF) and Medical Leadership Competency Framework (MLCF) are also available to specifically provide staff with clinically based examples and learning and development scenarios across the five core domains shared with the Leadership Framework.

Please visit [www.leadershipacademy.nhs.uk/](http://www.leadershipacademy.nhs.uk/) to learn more about the framework and how it can be used and applied.
