A BACKGROUND BOOK

Ivo Lspenna

Soviet Penal Policy

Peter H. Solomon

Soviet Penal Policy:

Soviet Penal Policy Ivo Lapenna, 1968 Surviving Russian Prisons Laura Piacentini, 2012-12-06 What do Russian prisons look like Who is sent to prison in Russia How is punishment allocated and administered This pioneering book aims to answer these and other questions by embarking on a journey that begins by exploring how the prisons have survived the collapse of the USSR and ends with a discussion of global penal politics It is the first book to have been written in English on penal practices in the contemporary Russian prison system Surviving Russian Prisons focuses in particular on the reality of work and labour within Russian prisons exploring its changing function From being for much of the twentieth century a major activity as well as an ideological justification for prison regimes its main function now has been to enable prisoners to survive through participating in a barter economy In exploring the microworlds of the Russian prison this book at the same time presents new evidence and offers fresh insight into how prisons are governed in societies undergoing turbulent social and political transformation it explores how current practices in relation to prisoners work comply with international regulations designed to promote humane containment and positive custody and debates the nature of knowledge on penal discourse in transitional states **The Impact of Covid-19 on Prison Conditions and Penal Policy** Frieder

Dünkel, Stefan Harrendorf, Dirk van Zyl Smit, 2022-04-19 The Impact of COVID 19 on Prison Conditions and Penal Policy presents the results of a worldwide exchange of information on the impact of COVID 19 in prisons It also focuses on the human rights questions that have been raised during the pandemic relating to the treatment of prisoners in institutions for both juveniles and adults worldwide The first part brings together the findings and conclusions of leading prison academics and practitioners presenting national reports with information on the prison system prison population rates how COVID 19 was and is managed in prisons and its impact on living conditions inside prisons and on reintegration programmes Forty four countries are covered many in Europe but also Argentina Brazil Chile Colombia Per Costa Rica Canada the USA Kenya South Africa China India Japan Australia and New Zealand In the second part thematic chapters concentrate explicitly on the impact of the pandemic on the application of international human rights standards in prisons and on worldwide prison population rates The book concludes by drawing out the commonalities and diverging practices between jurisdictions discussing the impact of measures introduced and reflecting on what could be learnt from policies that emerged during the pandemic Particular attention is paid to whether reductionist strategies that emerged during the pandemic can be used to counteract mass incarceration and prison overcrowding in the future Although the book reflects the situation until mid 2021 after the second and during the third wave of the pandemic it is highly relevant to the current situation as the living conditions in prisons did not change significantly during the following waves which showed high infection rates in particular in the general population but increased vaccination rates too In prisons problems the pandemic raises have an even greater impact than for the general society Revealing many notable and interesting changes in prison life and in release programmes

this book is essential reading for students and scholars of penology criminology law sociology and public health It will also appeal to criminal justice practitioners and policy makers

Remnek,1977 Monograph on the impact of sociologists on the process of social policy decision making in the USSR considers the place of social scientists as specialized elites examines their relationship with the communist political party reviews the evolution of social research methods and soviet sociology etc includes two case studies illustrating the involvement of criminologists and political scientists in social and foreign policy making and suggests a theoretical model

References **Origins Of The**

Gulag Michael Jakobson, 2014-07-15 A vast network of prison camps was an essential part of the Stalinist system. Conditions in the camps were brutal, life expectancy short. At their peak they housed millions and hardly an individual in the Soviet Union remained untouched by their tentacles. Michael Jakobson's is the first study to examine the most crucial period in the history of the camps from the October Revolution of 1917 when the tsarist prison system was destroyed to October 1934 when all places of confinement were consolidated under one agency, the infamous GULAG. The prison camps served the Soviet government in many ways: to isolate opponents and frighten the population into submission to increase labor productivity through the arrest of inefficient workers and to provide labor for factories, mines, lumbering and construction projects. Jakobson focuses on the structure and interrelations of prison agencies, the Bolshevik views of crime and punishment and inmate reeducation and prison self-sufficiency. He also describes how political conditions and competition among prison agencies contributed to an unprecedented expansion of the system. Finally, he disputes the official claim of 1931 that the system was profitable, a claim long accepted by former inmates and Western researchers and used to explain the proliferation of the camps and their population. Did Marxism or the Bolshevik Revolution or Leninism inexorably lead to the GULAG system? Were its origins truly evil or merely banal? Jakobson's important book probes the official record to cast new light on a system that for a time supported but ultimately helped destroy the now fallen Soviet colossus.
