**The Soviet Problem in American-German Relations** Uwe Nerlich, James A. Thomson, 1985 *East-west Conflict*  
Michael D. Intriligator, 2019-04-09 This book aims to bring together American and West German scholars in order to analyze U S German and Soviet elite perceptions of East West conflict It attempts to assess the policy implications and political options for the West The American Bibliography of Slavic and East European Studies ,1991 **United States**

**Technology Export Control** Douglas E. McDaniel, 1993-03-17 This is a broad ranging study of U S strategic export control policy In particular this book analyzes and evaluates the effectiveness of export controls in delaying the acquisition of militarily sensitive high technology by the Soviet Union and its allied states Furthermore the question of whether or not U S economic competitiveness in various high technology sectors has been unduly undermined by export controls is also evaluated Numerous official government studies and reports supplemented by a host of interviews with government officials businesspeople and analysts in the United States and Europe are utilized in drawing conclusions and posting policy recommendations The consequences for export control policy of the revolutionary political upheavals in Eastern Europe and the former U S S R are also addressed The study concludes that the strategic security goal of utilizing controls to hinder and delay the acquisition of militarily significant high technology by the former Soviet Union and its allied states was generally effective More controversially McDaniel argues that export controls per se have not been a significant determinant of lagging U S competitiveness in high technology However this conclusion is qualified by the observation that while overall trends in U S high technology exports to important trading partners do not suggest that controls by themselves have unduly hurt U S exporters individual sectors and small firms may be disadvantaged Finally the study cautions that U S policy must adapt or risk becoming outmoded and increasingly ineffective This book will be of interest to scholars and students of international relations international political economy and international business The United States in Relation to the European Situation American Academy of Political and Social Science, 1926 **Emerging Dimensions of European Security Policy**

Wolfgang F. Danspeckgruber, 2019-04-08 This book represents an overview of European security affairs as of 1989 1990 It deals with fundamental theoretical and political strategic considerations looks at arms control developments and examines European defense economies and military industrial capabilities of U S *America's Security in the 1980s* Christoph Bertram, 1982-06-18 **Some Outstanding Problems of American Foreign Policy** American Academy of Political and Social Science, 1927 **The Future of Germany and the Atlantic Alliance (Aei Studies)** Constantine C. Menges, 1991-09-04 Acknowledging that a united Germany will dominate the new world order evolving in Eastern Europe Menges proposes two alternative political directions for Germany Drawing on his years of observation of the German people and politics he addresses the long term implications of Germany's commitment to the NATO alliance and speculates on what the role of a neutral Germany might be especially regarding Germany's relationship with the Soviet Union He analyzes the

democratic transition in Eastern Europe and also provides a capsule history of the postwar political situation in Germany ISBN 0 8447 3731 3 24 95 *The Annals of the American Academy of Political and Social Science*, 1916 [The Crisis in NATO](#).
