

Characteristics of the Soviet psychiatry: Treatment

The first special hospital secret Soviet punitive psychiatry was Kazan prison psychiatric hospital NKVD, which started to be used for political purposes as early as in 1935.

However, the developed system of political abuse of psychiatry started to be extensively used at the end of Stalin's reign, in the later Soviet era. Two approaches to psychiatric treatment developed:

- One system was punitive psychiatry that served the Communist repression and was led by the Serbsky Institute of Forensic Psychiatry in Moscow.
- The second system was composed of psychotherapeutically oriented clinics and was exemplified by the Leningrad Psycho-neurological Institute named after Bekhterev.
