Space Dogs:

Space Dogs Justin Ball, Evan Croker, 2009-02-19 It all begins with Laika the first dog in space Launched into orbit by the Soviet Union Laika's craft is accidentally sucked through a wormhole and onto the Planet Gersbach inhabited by highly intelligent but very tiny people When a mysterious disturbance of gravity D O G threatens to destroy Gersbach Commanders Belka and Strelka are just the men to seek and destroy the source of D O G Their vehicle A highly sophisticated craft that looks exactly like a terrier Blending in with the locals on earth should be no problem And with the help of the Buckleys a lovable Earth family with problems of their own the mission to save their planet may still prevail

Space Dogs Martin Parr, 2019-06-11 This fascinating book tells the story of the soviet space dogs illustrated with legendary photographer Martin Parr's vintage space dog memorabilia In the 1950s the space race between the USA and the USSR was well and truly on and was for both a matter of pride and propaganda But before man ventured into the cosmos his four legged friends would pave the way for space exploration The first canine cosmonaut was Laika meaning barker The little stray could never have anticipated that she would one day float 200 miles above the Moscow streets She would be canonized as a proletarian hero appearing on stamps postcards and souvenirs Her successors were Belka and Strelka the first dogs to successfully return safely to Earth and with them the cult of the space dog was born In a regime that eschewed celebrating individual achievement the space dogs became Soviet superstars with a vast array of merchandise books and films in their honor A must for read for fans of Soviet Space Dogs by Olesya Turkina and Designed in the USSR 1950 1989 by Moscow Design Museum

Space Dogs Chris Dubbs, 2003 Back when scientists knew nothing about space travel back when rockets were new a group of Russian cosmonauts rode rockets to the edge of space and into earth orbit These pioneer space travelers were dogs space dogs of the Soviet space program For 15 years space dogs occupied the world stage blazing trails as the first astronauts Their flights taught scientists how living beings reacted to rocket travel and tested the equipment that would be used for human space flight The age of the space dog extended from the first launch in 1951 until the final record breaking dog flight in 1966 Some dogs won world wide fame Most of them however worked and died in obscurity They were all pioneers of space travel And no one has ever told their story Until now Space Dogs dramatizes the training of the dogs the harrowing early flights the tragic accidents the fame that came to the program after the launch of Laika in Sputnik 2 and the final flights leading up to the first manned flight Space Dogs includes never before published photos from the archives of Novosti the Russian News Agency
