Space Politics and Policy E. Sadeh, 2006-04-11 Space Politics and Policy An Evolutionary Perspective provides a comprehensive survey of Space Policy This book is organized around two themes Space Policy is evolutionary in that it has responded to dramatic political events such as the launching of Sputnik and the Cold War and has undergone dynamic and evolutionary policy changes over the course of the space age Space Policy is an integral part of and interacts with public policy processes in the United States and abroad The book analyzes Space Policy at several levels including historical context political actors and institutions political processes and policy outcomes It examines the symbiotic relationships between policy technology and science provides a review and synthesis of the existing body of knowledge in Space Policy and identifies Space Policy trends and developments from the beginnings of the space age through the current era of the twenty first century *Astronomy Now*, 1990

To Slip The Surly Bonds Jeannette Remak, To Slip The Surly Bonds NASA The Shuttle Disasters and the Demise of the U S Manned Spaceflight Program To Slip the Surly Bonds enters into the world of NASA and tells the story of not just why the shuttle disasters happened but exposes NASA s inner workings and what actually led up to the two most horrifying space accidents known It explores the new CEV and explains the need for the United States to pay more attention to space NASA s budget had been gutted many times by various Presidential administrations and Congress following the halcyon days of Apollo and the Moon NASA was short on money and mission profile after we landed on the moon The Space Shuttle was truly a successful program and the ISS gave the shuttle an excuse for being Congress was also having a field day with budget cuts not to mention devastating the programs with pork barrel projects that were hooked into the NASA budget NASA too had been its own worst enemy due to its static bureaucratic way of doing its internal business China and Japan and India are forging their way to the stars while NASA sits on a lonely launch pad waiting for the next crumb to fall from the Congressional table The U S Commercial Aerospace sector has had some brilliant successes with reaching the space station with robotic cargo flights but there is nothing that is now man rated for travel to the ISS or anywhere else The new CEV or Crew Exploration Vehicle is in the process of testing but the money is again short NASA must continue to struggle for its needs while other nations reach higher To Slip the Surly Bonds explores the intricacies of how and why NASA was created the Manned Spaceflight program how the shuttle disasters happened and why the United States position in the space frontier is in jeopardy
