Spartan Law:

Women, Crime and Punishment in Ancient Law and Society Elisabeth Meier Tetlow, 2005-06-24 The ancient period of Greek history to which this volume is devoted began in late Bronze Age in the second millennium and lasted almost to the end of the first century BCE when the last remnant of the Hellenistic empire created by Alexander the Great was conquered by the Romans Extant texts of law of actual laws are few and often found embedded in other sources such as the works of orators and historians Greek literature from the epics of Homer to the classical dramas provides a valuable source of information However since literary sources are fictional portrayals and often reflect the times and biases of the authors other more concrete evidence from archaeology has been used throughout the volume to confirm and contextualize the literary evidence about women crime and punishment in ancient Greece The volume is divided into three parts I Mykenean and Archaic Greece II Classical Greece and III the Hellenistic Period The book includes illustrations maps lists of Hellenistic dynasties and Indices of Persons Place and Subjects Crime and punishment criminal law and its administration are areas of ancient history that have been explored less than many other aspects of ancient civilizations Throughout history women have been affected by crime both as victims and as offenders In the ancient world customary laws were created by men formal laws were written by men and both were interpreted and enforced by men This two volume work explores the role of gender in the formation and administration of ancient law and examines the many gender categories and relationships established in ancient law including legal personhood access to courts citizenship political office religious office professions marriage inheritance and property ownership Thus it focuses on women and crime within the context of women in the society

Lawmaking and Adjudication in Archaic Greece Zinon Papakonstantinou, 2015-12-20 Lawmaking and Adjudication in Archaic Greece re evaluates central aspects of the genesis and application of laws in the communities of archaic Greece including the structure and function of legislative bodies the composition of the courts the administration of justice and the use and abuse of legal norms and procedures by litigants in the courts and everyday settings Combining a detailed analysis of epigraphical and literary evidence and the application of a model of interpretation borrowed from cultural analyses of law this book argues that far from being monolithic creations of archaic polities that unilaterally informed social life archaic legal systems can be more appropriately viewed as ideologically polyvalent and socially complex It includes legal norms and the administration of justice articulated associations with divine and secular authority but also incorporated mainly in their reception and application by average citizens discourses of utility and resistance that actively contributed in the composition of social relations

Divine Law and Political Philosophy in Plato's "Laws" Mark J. Lutz, 2012-04-15 All over the world secular rationalist governments and judicial authorities have been challenged by increasingly forceful claims made on behalf of divine law For those who believe that reason not faith should be the basis of politics and the law proponents of divine law raise theoretical and practical concerns that must be addressed seriously and respectfully As Mark J Lutz makes plain in this

illuminating book they have an important ally in Plato whose long neglected *Laws* provides an eye opening analysis of the relation between political philosophy and religion and a powerful defense of political rationalism Plato mounts his case Lutz reveals through a productive dialogue between his Athenian Stranger and various devout citizens that begins by exploring the common ground between them but ultimately establishes the authority of rational political philosophy to guide the law The result will fascinate not only political theorists but also scholars at all levels with an interest in the intersection of religion and politics or in the questions that surround ethics and civic education

Plato and Modern Law Richard O. Brooks, 2017-07-05 This audacious collection of modern writings on Plato and the Law argues that Plato's work offers insights for resolving modern jurisprudential problems Plato's dialogues in this modern interpretation reveal that knowledge of the functions of law based upon intelligible principles can be reformulated for relevance to our age Leading interpreters of Plato Vlastos Hall Strauss Weinrib Annas and Morrow are included in the collection The editor supplies an insightful introduction and extensive bibliography to the collection

Virtue and Law in Plato and Beyond Julia Annas, 2017-10-06 Julia Annas presents a study of Plato's account of the relation of virtue to law how it developed from the Republic to the Laws and how his ideas were taken up by Cicero and by Philo of Alexandria Annas shows that rather than rejecting the approach to an ideal society in the Republic as generally thought Plato is in both dialogues concerned with the relation of virtue to law and obedience to law and presents in the Laws a more careful and sophisticated account of that relation His approach in the Laws differs from his earlier one because he now tries to build from the political cultures of actual societies and their histories instead of producing a theoretical thought experiment Plato develops an original project in which obedience to law is linked with education to promote understanding of the laws and of the virtues which obedience to them promote Annas also explores how this project appeals independently to the very different later writers Cicero and Philo of Alexandria

Xenophon and Sparta Anton Powell, Nicolas Richer, 2020-03-01 Xenophon has for long and understandably enjoyed a privileged position as a reliable source on Sparta Commander of a grand military expedition of Sparta's devising and a dependent of Sparta's influential king Agesilaos Xenophon knew Sparta from the inside and as himself an Athenian in exile was well placed to comment on Sparta's difference The simplicity of his Greek style has a perfume of honesty And yet Recent research has with increasing force called into doubt Xenophon's motives and truthfulness especially as regards Sparta Analysis of his Hellenica reveals much evasion and euphemism about Sparta's failings complicated by occasional outbursts against the iniquity of Spartan imperialism His euphemistic Constitution of the Lakedaimonians itself containing such an

outburst and his near hagiography of the dead Agesilaos have variously evoked trust and suspicion in historians This book by a distinguished team of specialists in Spartan history is the first of a short series from CPW approaching Spartan reality by way of close analysis of our main contemporary Greek sources their access their biases the literary structure and the genre of their works
