When the Dragons Return Michael Turner,2025-03-23 When the Dragons Return An Esoteric Guide for the New Age Dragons were never just myths or fantasies They are primordial forces vibrational consciousnesses that shape the invisible web of existence and guard secrets long forgotten by humanity Present in cultures across all times and places these elemental entities have always been symbols of power balance and transformation But what happened to them Why did they withdraw from our plane And more importantly why do we now feel their presence returning This work reveals that dragons never left They simply waited In hidden dimensions they continue to watch over the Earth s cycles awaiting the right moment to reconnect with those awakening to their true essence Their call resonates in those who seek ancestral wisdom who yearn for a greater purpose and who feel the urgent need to restore harmony between spirit and matter By unveiling the dragons connection with the four elements their energetic manifestations and their impact on the spiritual journey this book offers a path to understand and access their presence The awakening of draconic energy is an invitation to transformation a return to what has always been within us The question is not whether they will return but rather are you ready to hear them
