## **The Downing Street Years:**

*The Downing Street years* Margaret Thatcher, 1993 The first volume of memoirs by Margaret Thatcher frankly recalls the former British prime minister's dealings with U S presidents the Falkland War and her election victories in 1983 and 1987 150 000 first printing 150 000 ad promo Tour

**The Downing Street Years** Margaret Thatcher, 2011-01-04 This first volume of Margaret Thatcher's memoirs encompasses the whole of her time as Prime Minister the formation of her goals in the early 1980s the Falklands the General Election victories of 1983 and 1987 and eventually the circumstances of her fall from political power She also gives frank accounts of her dealings with foreign statesmen and her own ministers

**Margaret Thatcher** Smithmark Publishers, Incorporated, 1995-09-01 [A Journey with Margaret Thatcher](#) Robin Renwick, 2013-04-02 In a remarkably candid new book former high ranking diplomat Robin Renwick provides a fascinating insight into Margaret Thatcher's performances on the world stage He examines her successes including the defeat of aggression in the Falklands her contribution to the ending of the Cold War and her role in the Anglo Irish agreement her special relationship with Mikhail Gorbachev and what the Americans felt to be the excessive influence she exerted over Ronald Reagan and attitudes towards F W de Klerk and Nelson Mandela and what she herself acknowledged as her spectacular failure in resisting German reunification He describes at first hand her often turbulent relationships with other European leaders and her arguments with Cabinet colleagues about European monetary union in which regard he contends her arguments have stood the test of time and are highly relevant to the crisis in the eurozone today Finally he tells of her bravura performance in the run up to the Gulf War her calls for intervention in Bosnia and the difficulties she created for her successor While her faults were on the same scale as her virtues Margaret Thatcher succeeded in her mission to restore Britain's standing and influence in the process becoming a cult figure in many other parts of the world Including material from the recently released War Cabinet files on the Falklands conflict this book is an important exploration of an outstanding world leader

[The Churchill Complex](#) Ian Buruma, 2021-09-07 Stimulating and highly readable *The Churchill Complex* is a rich and rewarding book Wall Street Journal From one of its keenest observers a brilliant witty journey through the Special Relationship between Britain and America that has done so much to shape the world from World War II to Brexit It is impossible to understand the last seventy five years of American history through to Trump and Brexit without understanding the Anglo American relationship particularly the bonds between presidents and prime ministers FDR of course had Winston Churchill JFK had Harold Macmillan his consigliere during the Cuban Missile Crisis Ronald Reagan found his ideological soul mate in Margaret Thatcher and George W Bush found his fellow believer in religion and in war in Tony Blair Today the bond between Donald Trump and Boris Johnson illuminates the populist uprisings in both countries as well as a new kind of Special Relationship that goes against everything it once stood for Remembering the past even its most glorious moments can be as misleading as forgetting it Over and over in the name of freedom and democracy British and especially American

leaders have evoked Winston Churchill as a model for brave leadership and Neville Chamberlain to represent craven weakness As Ian Buruma shows in his dazzling short tour de force of storytelling and analysis the myths of World War II too often resulted in bad policies and foolish wars But The Churchill Complex is much more than a reflection on the weight of Churchill s legacy and its misuses At its heart are shrewd and absorbing character studies of the president prime minister dyads which in Ian Buruma s gifted hands serve as a master class in politics diplomacy and the personal quirks of our leaders It has never been a relationship of equals from Churchill s desperate cajoling and conniving to keep FDR on his side in World War II British prime ministers have put much more stock in the relationship than their US counterparts After the loss of its once great empire Britain clung to the world s greatest superpower as a path to continued relevance and leverage As Buruma shows this was almost always fool s gold and now the alliance has floundered on the rocks of isolationism The Churchill Complex may not have a happy ending but as with Ian Buruma s other works piercing lucidity is its own lasting comfort
