World As Design Writings Of Design:

World as Design Otl Aicher,1994-07-27 Otl Aicher's writings are explorations of that world They are a substantive part of his work In moving through the history of thought and design building and construction he assures the possibilities of arranging existence in a humane fashion As ever he is concerned with the question of the conditions needed to produce a civilization culture These conditions have to be fought for against apparent factual or material constraints and spiritual and intellectual substitute offers Otl Aicher has a taste for dispute For this reason this volume contains polemical statements on cultural and political subjects as well as practical reports and historical exposition Aicher fights with productive obstinacy above all for the renewal of Modernism which he says has largely exhausted itself in aesthetic visions He insists that the ordinary working day is still more important than cultural Sunday Wolfgang Jean Stock **The World as Design**, 1994
