World Facts:

Bare Facts and Naked Truths George Englebretsen, 2017-09-29 The very idea of truth as a substantial and meaningful concept has been under attack recently from advocates of New Age and postmodern theories In this book Englebretsen defends the notions of truth and objectivity as key to the scientific view of the natural world and presents an original defence of the commonsense correspondence theory of truth Englebretsen s approach overcomes the traditional difficulties of correspondence theories of truth with providing adequate and convincing accounts of truth bearers truth makers and the correspondence relation between them by taking truth bearers to be propositions and facts as constitutive properties of the world This accessibly written book surveys all of the major competing theories of truth coherence pragmatic redundancy semantic deflationary disquotational minimalist before formulating the new defence of the correspondence theory and then exploring the consequences of the theory for issues in epistemology and ontology The book concludes by showing how the idea of propositional depth can be used to dissolve the Liar paradoxes [Facts about Sugar](#) ,1914 [Wittgenstein](#) Hans Sluga, 2011-09-06 wittgenstein Sluga draws a fascinating picture of Wittgenstein as a situated thinker brilliant insights into the cultural background mesh with an often original and always profound understanding of Wittgenstein s work yielding an accessible and illuminating account of his thought Joachim Schulte University of Zurich Concise clear and accessible this sophisticated introduction covers an unusually wide range of central topics including Wittgenstein s historical and intellectual context his philosophical development and the ethical and political implications of his work David Stern University of Iowa For his radical questioning original thinking and determination to reshape the philosophical landscape Ludwig Wittgenstein is widely hailed as a giant in twentieth century philosophy Wittgenstein presents a concise comprehensive and systematic treatment of the Austrian born philosopher s thought from his early work *Tractatus Logico Philosophicus* to the posthumous publication of *On Certainty* notes written just prior to his death Renowned Wittgenstein scholar Hans Sluga first recounts events in Wittgenstein s life in order to illuminate the historical political and personal conditions from which his philosophical work emerged After identifying some of the philosopher s key concepts and ideas in subsequent chapters Sluga then reveals how the cultural and political changes that Wittgenstein and his contemporaries lived through mirror many of the dramatic events now happening in the twenty first century Sluga s original analysis goes on to illustrate vividly how Wittgenstein s thought may help us to face the peculiar problems of our own contemporary social and political existence Illuminating and thought provoking Wittgenstein offers ground breaking new insights into the mind of one of the most original and influential thinkers of the twentieth century [The World's Work](#) ,1919 A history of our time [The World Almanac and Book of Facts 2004](#) William A. Metric Standardization Council,1922 **Questions of Character** Iskra Fileva,2016-10-11 This collection features 26 new essays on character from first rate scholars in philosophy psychology economics and law The essays are elegantly written and combine forceful argumentation with original ideas on a wide range of questions such as Is Aristotle s theory of character a moral theory Are character traits in tension with personal autonomy How do traits differ from mental disorders What is the role of gossip in character attribution and Can businessmen be virtuous The chapters are organized thematically into 5 sections each prefaced by its own special introduction In the introductions the editor brings out often unexpected connections among different lines of argument pursued by the authors and raises important questions for further discussion The collection as a whole offers students of character a unique opportunity to engage with some of the best contemporary work on the topic *Humanity Matters* Andrew Fellows,2026-04-16 *Humanity Matters* Re enchanting Homo Sapiens confronts the deep crisis of identity facing modern society Secularism has increasingly caused people to forget their God given value but Andrew Fellows argues that recovering a Christian view of personhood offers a compelling and life affirming alternative Andrew unveils the richness of a biblical anthropology a vision that restores dignity meaning and hope for humanity He invites believers and seekers alike to consider how the truth contained in the Bible could uniquely satisfy humanity s deepest longings Thoughtful timely and accessible *Humanity Matters* is essential reading for anyone yearning to reclaim the wonder of what it means to be truly human *New Waves in Metaethics* Michael S. Brady,2010-11-17 Metaethics occupies a central place in analytical philosophy and the last forty years has seen an upsurge of interest in questions about the nature and practice of morality This collection presents original and ground breaking research on metaethical issues from some of the very best of a new generation of philosophers working in this field *Startling Facts in Modern Spiritualism* Napoleon Bonaparte Wolfe,1874 *Life Beyond Death, Being a Review of the World's Beliefs on the Subject* Minot Judson Savage,1902 **With the World's People** John Clark Ridpath,1916 *An Invitation to Formal Reasoning* Fred Sommers,George Englebretsen,2017-03-02 *An Invitation to Formal Reasoning* introduces the discipline of formal logic by means of a powerful new system formulated by Fred Sommers This system term logic is different in a number of ways from the standard system employed in modern logic most striking is its greater simplicity and naturalness Based on a radically different theory of logical syntax than the one Frege used when initiating modern mathematical logic in the 19th Century term logic borrows insights from Aristotle s syllogistic Scholastic logicians Leibniz and the 19th century British algebraists Term logic takes its syntax directly from natural language construing statements as combinations of pairs of terms where complex terms are taken to have the same syntax as statements Whereas standard logic requires extensive translation from natural language to symbolic language term logic requires only transcription into the symbolic language Its naturalness is the result of its ability to stay close to the forms of sentences usually found in every day discourse Written by the founders of the term logic approach *An Invitation to Formal Reasoning* is a unique introduction and exploration of this

new system offering numerous exercises and examples throughout the text Summarising the standard system of mathematical logic to set term logic in context and showing how the two systems compare this book presents an alternative approach to standard modern logic for those studying formal logic philosophy of language or computer theory Fred Sommers is Professor Emeritus Brandeis University USA George Englebretsen is Professor of Philosophy Bishop s University Canada

The Christian Century ,1927 *Robust Reality* George Englebretsen,2013-05-02 Contemporary analytic philosophy can generally be characterized by the following tendencies commitment to first order predicate logic as the only viable formal logic rejection of correspondence theories of truth a view of existence as something expressed by the existential quantifier a metaphysics that doesn t give the world as a whole its due This book seeks to offer an alternative analytic theory one that provides a unified account of what there is how we speak about it the underlying logic of our language how the truth of what we say is determined and the central role of the real world in all of this The result is a robust account of reality The inspiration for many of the ideas that constitute this overall theory comes from such sources as Aristotle Leibniz Ryle and Sommers *An Illustrated and Popular Story of the World's First Parliament of Religions ...* ,1893 *Instructor* ,1987 **A Library of the World's Best Literature** Charles Dudley Warner,Hamilton Wright Mabie,Charles Henry Warner,Lucia Isabella Gilbert Runkle,George H.
