Access Card 0205996124 9780205996124 The World's History Combined Volume *World History* Candice Goucher, Linda Walton, 2013-07-24 World History Journeys from Past to Present uses common themes to present an integrated and comprehensive survey of human history from its origins to the present day. By weaving together thematic and regional perspectives in coherent chronological narratives, Goucher and Walton transform the overwhelming sweep of the human past into a truly global story that is relevant to the contemporary issues of our time. Revised and updated throughout the second edition of this innovative textbook combines clear chronological progression with thematically focused chapters. In this volume, chapters are divided into three parts as follows: PART 4 BRIDGING WORLDS 1300-1800 CE, PART 5 TRANSFORMING LIVES 1500-1900, and PART 6 FORGING A GLOBAL COMMUNITY 1800-Present. The expanded new edition boasts an impressive full-color design with a host of illustrations, maps, and primary source excerpts integrated throughout. Chapter opening timelines supply context for the material ahead, while end-of-chapter questions and annotated additional resources provide students with the tools for independent study. Each chapter and part boasts introductory and summary essays that explain and guide the reader in comprehending the relevant theme. In addition, the companion website offers a range of resources including an interactive historical timeline, an indispensable study skills section for students, tips for teaching and learning thematically, and PowerPoint slides, lecture material, and discussion questions in a password-protected area for instructors. This textbook provides a basic introduction for all students of World History while at the same time incorporating the thematic perspectives that encourage critical thinking, link to globally relevant contemporary issues, and stimulate further study.

A Companion to World History Douglas Northrop, 2014-12-15 *A Companion to World History* This new volume offers insightful reflections by both leading and emerging world historians on approaches, methodologies, arguments, and pedagogies of a sub-discipline that has continued to be in flux, as well as in need of defining itself as a relevant alternative to the traditional national, regional, or chronological fields of inquiry. Choice: The focus on the practicalities of how to do world history probably gives it its edge. Its thirty-three chapters are grouped into sections that address how to set up research projects in world history, how to teach it, how to get jobs in it, how to frame it, and how it is done in various parts of the globe. It is an actual handbook in other words, as opposed to a sample of exemplary work.
