Study Tips

Prepare before class

Review notes from last class

look through chapter to understand basic idea of this class

May take 20-30 mins, but makes a huge difference.

When in doubt, write it down

Don't write everything, though! (Main points, main ideas)

Don't spend too long deciding if you should write it down

Thin your notes

Don't write everything! Leave out words

Use abbreviations - include a key of specific-for-this lecture abbreviations. Eg.: A lecture about King Henry VIII will require you to repeat his name several times. Instead of writing it out each time, make a note: King Henry VIII = H. Or, if that would be confused with King Henry VII, abbreviate it as: King Henry VIII = 8.

Know your prof

Use the note-taking method that will best help you with this particular prof's lectures.

A more organized prof works well with the Cornell style. Use the note-taking method for visual learners for a prof that jumps around and returns to previous points.

Show the prof your notes after the first lecture and ask if you are hitting main points.
