Ways of Being Free Adnan Mahmutović, 2012-01-01 Iconic migrant writers such as Michael Ondaatje Salman Rushdie and Ben Okri use their fictional worlds to articulate the ways in which existential nervous conditions caused by violent postcolonial history drive individuals to rework the critical notions of freedom authenticity and community This existential thread in their works has been largely ignored or left undeveloped in criticism Although Rushdie has argued that they primarily write back to the imperial centres in their signature novels *The English Patient* *Midnight's Children* and *The Famished Road* they respond to their conflicting cultural and ethnic heritages by dramatizing characters in traumatic struggles with belonging and affiliation As a way of coping with their identity crises most characters succumb to the political rhetoric of communalism The central characters however are driven by a powerful desire for self sufficiency Yet since this individualism clashes with their need for communal sharing they enact a form of creative destruction of their singular selfhood and communal identity They experience a certain plurality of singular selfhood and participate in forms of inoperative communities which elicit bonds without ties and coexistence without the necessity of a common work and essence
